State Nursery Co.'s Catalogue

*Seeds, Bulbs,
Trees, Plants,
Etc.*

Helena, Montana

PLANT DEPARTMENT

The shortness of the growing season here necessitates that plants should be large and strong and ready to blossom when first put out. This is a feature which Eastern firms don't understand, and as a consequence the small, cheap plants advertised by them are entirely unsuited to this section.

The plants we quote will be found not only suitable for this climate and altitude as regards variety, but also as to size. In ordering please state price of plant wanted.

All prices quoted are net at greenhouses, and as express charges to Montana points at our special plant rate are cheap, purchasers will certainly be repaid by purchasing our products in preference to shipping them a long distance.

A bed of Achillea in our Nursery.

Achillea Alba, The Pearl—Eighteen inches to two feet in height, completely covered with pure white flowers from July until frost. Perfectly hardy; will thrive in any good soil or situation.....15c each, \$1.50 per dozen

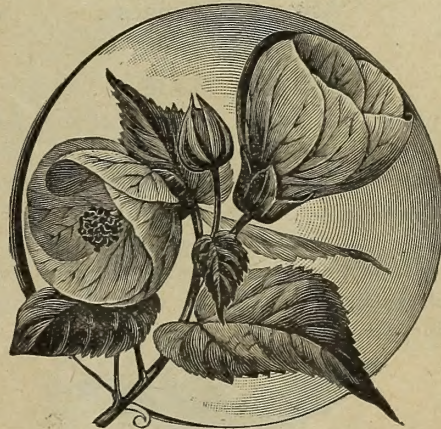

Alyssum—(Sweet). Double white. A pretty plant for beds, borders or vases.

Each10c. Doz. \$1.00

Antirrhinum—(Snapdragon). Our improved strain makes a fine display, the plant developing into a bush, with a fine variety of colors. Dozen25c

Asters—These beautiful blooming plants, so well known, need no description. They do better in Montana than in many other states, and are general favorites. Our own production of these flowers have received many fa-

vorable comments. We grow only the very best varieties. All colors, dwarf and tall.
Dozen25c

Abutilon.

Abutilon—(Flowering Maple). The Souvenir de Bonn, a beautiful variegated sort; of green maple shaped leaves, relieved with creamy white. Flowers bright orange.

Each.....10c, 25c and 50c

Abutilon—(Boule de Nieve). Pretty dark green foliage with pure white blossoms; very free bloomers.

Each.....10c, 25c and 50c

Abutilon—(Coupe d'Hege). Flowers of the grandest size; red veined orange.

Each.....25c and 50c

Asparagus—(Plumosus). Well known and generally used on account of its delicate feathery or fern-like foliage. Popularly known as asparagus fern. A pretty pot plant.

Each.....20c, 35c and 50c

Asparagus—(Sprengeri). Another pretty variety, used mostly for hanging baskets. Very graceful. Each.....25c, 35c and 50c

Aspidistra—(Lurida Variegata). A very useful and durable decorative plant. Especially adapted to jardiniere use. Easily managed and excellent for hall or corridor. Will succeed in any position.

Each.....\$1.00 to \$3.00

Asparagus Plumosa.

See Page 1.

AMARYLLIS.

Johnsonii—The old favorite and almost too well known to need description. The immense trumpet-shaped flowers, which measure 6 to 8 inches across, are borne on strong fleshy flower spikes and are of rich velvety crimson, each petal having a broad white stripe, contrasting beautifully with the deep red color. Growing plants....50c and 75c each

Araucaria.

Araucaria—(Norfolk Island Pine). Easily grown in the house, highly ornamental, has deep green, feathery foliage, arranged in whorls. Nicely grown plants.

Each.....\$1.00 to \$3.00

Azalea.

Azaleas—(Season December to March). Beautiful flowering shrubs which are covered so thickly with blossoms as to sometimes hide foliage almost entirely. We import our supply direct

from Belgium. The plants will last and give good results through several seasons.

Each.....\$1.50 to \$3.00

BEGONIAS

We offer some very choice varieties of this favorite house plant.

REX VARIETIES.

Mrs. A. G. Shepherd—Leaves nearly all silver, with center and edge greenish maroon.

Kaiser Wilhelm—Very distinct; center of leaf deep velvety green, outer edge narrowly bordered darker.

Walter Lamb—Rich green in center; remainder of leaf silvery white.

Each.....25c and 50c

Begonia Rex.

FLOWERING VARIETIES.

Gloire de Lorraine—This new begonia is a treasure, exceeding in showiness any other variety. It is a winter-blooming variety, flowering from October to May. It is of compact habit, and when in bloom produces a solid mass of brilliant pink flowers, completely covering the plant, making it a huge Bouquet. Nothing that can be grown in the plant line makes a finer show than this be-

gonia. It is a novelty of the most sterling merit, and we can recommend it in the very highest terms. Each.....30c

Paul Bruant—Leaves large and five-pointed, beautifully cut. Flowers rosy pink, freely produced in extra large panicles. One of the best.....30c each

Rubra—Flowers very large, bright scarlet, wax-like, borne in long, drooping clusters. Blooms the whole year through. Each.....20c and 50c

Metallica—Large ornamental leaves, glossy green, shaded with maroon and olive, covered with coral colored hairs; beautiful metallic lustre over all.....20c and 50c

Incarnata Grandiflora — Winter - flowering. When in bloom completely covered with large pink flowers, forming a solid living bouquet.....20c and 50c

Argentea Guttata—Dark green leaves, marked with small silvery white dots, reverse side reddish. Flowers white, tinted pink. Each.....20c and 50c

TUBEROUS-ROOTED.

These beautiful summer-flowering Begonias are deserving of much greater popularity. Colors range from the purest white and most delicate tints of pink, yellow and orange to the most intense scarlet and richest crimson. Plants, each.....20c, 35c and 50c
Tubers.....10c each

Chrysanthemum Maximum as it grows in our Nursery.

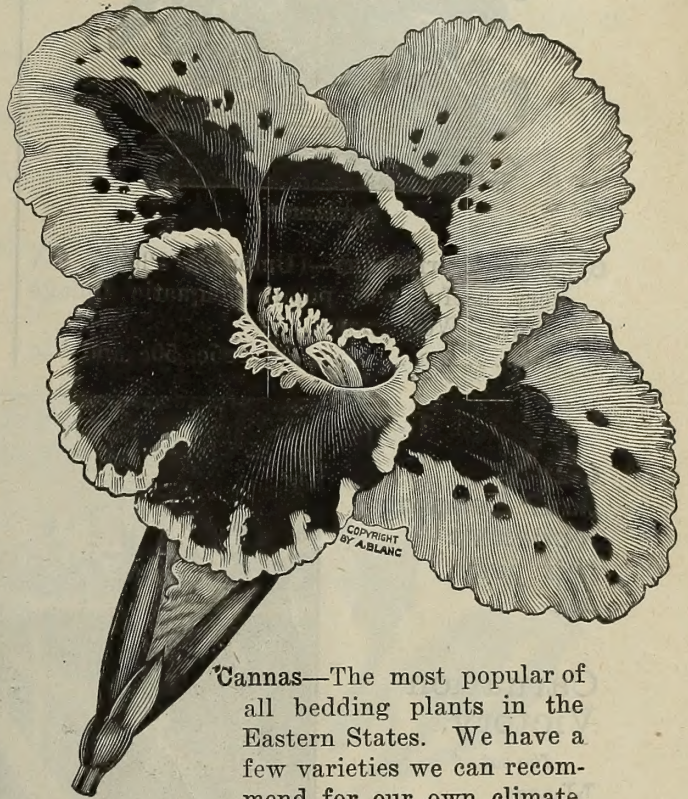

Chrysanthemum—(Maximum). These summer flowering Chrysanthemums, or Marguerites, are becoming general favorites, and deservedly so. They are free-growing perennials, not exceeding 2 1-2 feet in height, forming

large bushes, which are covered with bloom the entire summer; the flowers are large, pure white and of great substance, lasting a week or more when cut; they continue in bloom all summer and are perfectly hardy.

1 year old roots, each.....25c

Canarybird Vine—A beautiful climber, suitable for porches and trellises. The demand for this favorite increases every year with us, most persons preferring to purchase plants well under way to the uncertainty of growing from seeds planted out doors.

Each.....5c. Doz. 60c

Canna.

Cannas—The most popular of all bedding plants in the Eastern States. We have a few varieties we can recommend for our own climate. Fine large plants, each.25c

Caladium—Fancy leaves, one of the prettiest of variegated plants. Each....
.....35c and 50c

CALLA.

Calla Lily — We have this favorite window plant 5-inch and 6-inch pots.

Price, each....
.....50c and 75c

Calla Lily.

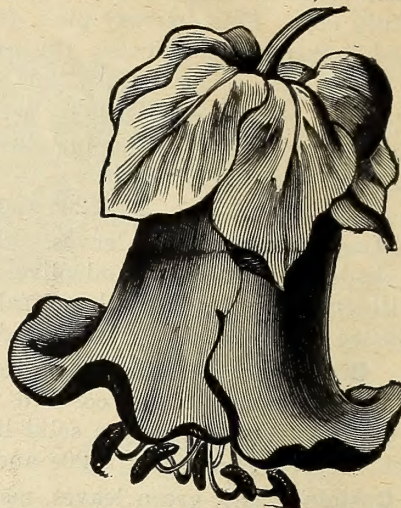

Cineraria—(January to April). This pretty window plant is much in demand.
Each.....50c and 75c

Cyclamen.

Cyperus Alternifolius—(Umbrella Plant). A very useful and popular aquatic foliage plant. Well known.
Each.....25c, 50c and 75c

Cyclamen—Beautiful window plants with orchid-like flowers. General favorite for winter and spring blooming.
Each.....50 c, 75c and \$1.00

Cobea Scandens.

Cobea Scandens—A climber of rapid growth, valuable for covering arbors, fences, etc.
Each.....10c; \$1.00 per doz.

State Nursery Co., Helena, Mont.

The bulbs and plants arrived in splendid condition. I am quite delighted with them; they are flowering away in my window as if they had never left their home.
MRS. COUPLAND.

Elgin, Nebraska, Oct. 27th, 1905.

Manhattan, Mont., April 18, 1905.

State Nursery Co., Helena, Mont.

Gentlemen:—Enclosed find money order due for trees, which were in good condition when received and are very satisfactory.

Yours truly,

P. ALBERDA.

CARNATIONS.

Six New Varieties.

Fiancee—Clear pink; a lively, bright pleasing color, a shade not approached by any known variety of carnation at the present time. Flowers are extremely large, three to three and one-half inch flowers not a rare occurrence; depth, two inches and over. One of the earliest and freest bloomers, continues throughout the entire season without any cessation. Price, each.....15c

Red Lawson—Color, it is a bright, pleasing scarlet, habits and growth like its parent, Mrs. Thomas W. Lawson, an excellent keeper. Size is from three to three and three-fourths inches, and it is without a doubt the most productive of any carnation grown. Each15c

Flamingo—Flowers two and one-half inches. It is of fine form and is very fragrant. Color a brilliant scarlet. Each.....15c

Lady Bountiful—A pure glistening white, rich clove fragrance. Each.....15c

Mrs. M. A. Patten—Amongst variegated varieties this carnation holds the same position as Enchantress and Nelson Fisher in their colors, and is decidedly in the same class. The ground color is white, beautifully marked with pink (of about the same shade as Lawson) and just enough of it to make the flower chaste and attractive. Early blooms are large, averaging three to three and one-half inches; stems stiff and long from the first; the fragrance is spicy and sweet; habit of plant ideal; has a grand constitution, and makes a splendid growth in the garden. Each15c

White Lawson—Having all the good qualities of its parent, Mrs. Thomas W. Lawson; color white, slightly tinged with pink. Each..15c

The set of six varieties for.....60c.

STANDARD VARIETIES OF CARNATIONS.

Enchantress—A very pleasing shade of light pink, deepening towards the center, on the color of Daybreak Flowers, very large, of fine form, from 3 1-2 to 4 inches, with long, stiff, self-supporting stems; commences to flower very early.

Adonis—Considered by some the finest brilliant scarlet carnation yet introduced. Winner of the Lawson Gold Medal.

Boston Market—A fine, free growing white variety.

Prosperity—Color white, overlaid with pink. One of the largest carnations ever offered. Blooms never measure less than three inches and over four inches, borne on long, stiff, wiry stems thirty inches long.

Mrs. Thos. W. Lawson—(Cerise Pink). This grand variety is only superseded by one variety in its color (Nelson Fisher) and is more extensively grown than any carnation in its color.

Marquis—A beautiful soft rich pink.

G. H. Crane—Red, a prolific bloomer.

Avondale—A soft pink.

Queen Louise—White, extensively grown by us.

Gov. Roosevelt—Rich maroon.

Alba—Large white.

Price, any of the above varieties, 10c each, \$1.00 per dozen.

Large plants 25c each.

Carnation.

CHRYSANTHEMUMS.

The varieties here offered are the best known.

Lady Fitzwygram—Dwarf, white, early bush plants.

Monrovia—Tall, yellow, early bush plants.

Glory of the Pacific—Dwarf, pink, early bush plants.

White Ivory—Dwarf, white, November.

Pink Ivory—Dwarf, pink, November.

Alice Byron—Medium, white, November.

A. J. Balfour—Dwarf, deep pink, December.

Major Bounafon—Medium, yellow, November.

W. R. Church—Medium, crimson, November.

- Nathan Crimson**—Tall, crimson, November.
 Small plants (ready May to July)
 Each.....10c, doz. \$1.00
- Daisies**—A great favorite. The plants we offer
 are the finest double giant varieties.
 Pink and white. Doz.....25c

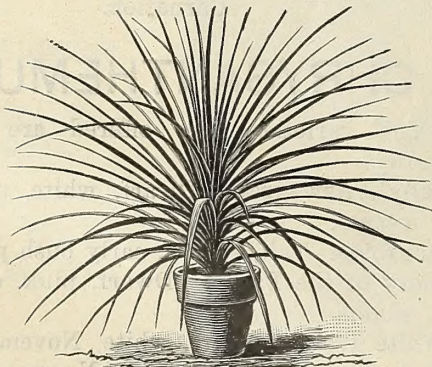

Dahlia.

DAHLIAS.

We have the following
 varieties, embracing
 the kinds we have
 found to do well in
 Montana.

- Arabella**—Pale primrose, shaded rose.
Armorer—Deep red of fine form.
Client—Large, deep velvety crimson.
Hetherbell—Maroon striped lilac.
John Walker—Pure white, best.
Jamaica—Rich plum, finely quilled.
Le Phare—Large, deep scarlet.
Penelope—White flaked lavender.
Prince Bismarck—Rich deep purple.
Queen of Yellows—
Queen of Belgium—Delicate pink.
Lucy Fawcett—Light yellow striped carmine.
Water Lily—Large white.
Snow Clad—Small white, very fine.
Cactus—White, very large.
Maid of Kent—Lavender, red and white.
 Price from 3-inch pots..10c each, \$1.00 doz.
 Price from 4-inch pots (the best)..20c each
\$2.00 doz.
 Roots25c each

Dracaena Indivisa.

Dracaena Indivisa—A splendid decorative
 plant, largely used in outdoor vases, with
 tropical looking foliage and graceful habit;

very easily managed, and stands the air and
 conditions of the house well.

Fine specimen plants..\$2.00 and \$3.00 each

FERNS.

Adiantum Cuneatum—Very graceful and dain-
 ty, the popular Maidenhair.

Each.....25c and 50c

Aspidium Tsussimense—A pretty dwarf grow-
 ing species, extensively used in fern dishes.

Each.....20c to 50c

Asplenium Bulbiform—A very interesting and
 easily grown fern, making nice stocky
 plants. Each.....25c to 50c

Nephrolepis Davalleoides Furcans—The leaves
 of this variety are broader and heavier than
 those of the "Boston," the ends of the leaf-
 lets beautifully crested, giving them a very
 unique appearance.

Each.....50c and 75c

Boston Fern.

Nephrolepis Elegantissima.—(The New Tarry-
 town Fern)—This is an aristocrat among all
 the Nephrolepis and when well done un-
 questionably the finest of the lot, is a sport
 from the Pierson Fern, in which the plummy
 peculiarity of the original form is even more
 distinctly developed than in the original
 the side pinnae being again subdivided and
 standing at right angles to the midrib,
 makes both sides of the frond equally beau-
 tiful, while, at the same time, the plant is of
 much more compact habit, growing only
 one-half as tall, but with the fronds nearly

twice as wide, making it a much more desirable plant for all purposes.

Plants from 4-inch pots.....\$1.00 each

Nephrolepis Bostoniensis—The popular Boston Fern is still in greater demand than any fern yet introduced, and our supply is constantly being renewed. The secret of the popularity of this fern is its adaptability to house conditions.

Well grown plants, ea. 35c, 75c, \$1.50, \$2, \$3

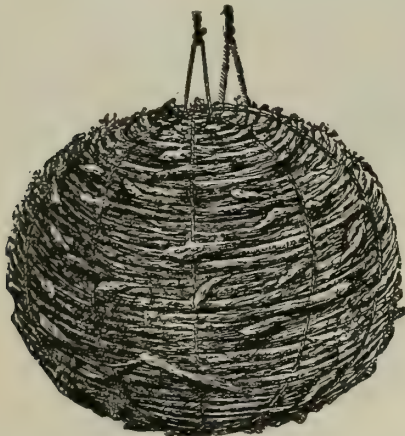

Hanging baskets of the same \$3.00 and \$3.50

Nephrolepis Wittbodii—A sport from the "Boston Fern," but more erect and of stronger growth, having beautiful wavy and crinkled fronds, and a very desirable new house fern.

Each, 4-inch pots.....50c

The New Boston or Sword Fern—(*Nephrolepis Piersoni*)—

Each.....50c, 75c and \$2.50

Japanese Fern Ball.

Japanese Fern Balls—A very pretty novelty from Japan. These are fern root-stocks wound around a ball of Sphagnum moss, which retains the moisture for a long time, so that an occasional watering is all that is necessary. To start growth put the ball into a pail of water for 15 minutes every two days until foliage appears, then water as necessary. Dormant Fern Balls.

Each.....50c and 75c

Pteris Argyrea—A strong growing fern, having bright green foliage with a broad stripe of silver white down the center of each leaf; very distinct. Each.....35c and 50c

Pteris Tremula—(Irish Fern)—One of the finest for house decoration, growing very rapidly and producing large, handsome fronds

A very serviceable fern. Each.35c and 50c

Other Ferns in variety suitable for fern dishes, etc. Each.....15c to 35c

Feverfew—A very prolific bloomer, showing a mass of white flowers throughout the season. Each.....10c. Doz \$1.00

Forget-me-not—Plants of the improved strains of this pretty little flower; very much used as a border plant.

Each.....10c. Doz. \$1.00

Ficus—(Rubber Plant)—We have a good stock of this well known decorative plant.

Each.....50c, 75c, \$1.00

Fuchsia.

Fuchsias—We offer six new varieties.

Rosains Patri—Deep scarlet tube and sepals, large white corolla, double.

Rifford—Carmine tube and sepals, purplish red corolla, single.

Chas. Blanc—Dark red sepals, corolla rosy amaranth, single.

Trophee—Double purple corolla, crimson tube and sepals.

Lustre—White tube and sepals, corolla scarlet, single.

Speciosa—Red tube and sepals, corolla dark red, single.

Each 15c. The set of six.....75c

Mrs. E. G. Hill—White and red, double.

Black Prince—An old favorite, single, red.

Phenomenal—Very large, double, red and purple.

Mrs. Marshall—White and rose, single.

Col. Merchand—Double, red and purple.

Each 10c. Doz.....\$1.00

Large plants of any variety of Fuchsia
.....25c, 35c and 50c

Gladiolus Princeps.

Princeps—(The new Amaryllis-flowered Gladiolus)—A superb new Gladiolus. This magnificent variety, grown and developed by Dr. Van Fleet and is the largest and most effective of all Gladioli. It grows from 3 1-2 to 4 feet high under ordinary garden conditions; its broad handsome foliage is a grand setting for the brilliant Amaryllis-like blossoms which open more widely than any other variety, a characteristic it receives from *G. cruentus*, the mother species. The color is rich crimson with intense shadings in the throat, and broad white blotches across the lower petals. The flowers range from 5 to 6 inches in diameter, and can be grown to nearly 8 inches under stimulating culture. The petals are very wide and much rounded, forming an almost circular flower. From three to six of these immense and brilliant blooms are expanded at a time on each spike, which often produces 16 to 18 flowers during its development. Princeps is a most striking variety and the rate of increase is such that in time it can be produced in large quantities for bedding purposes as well as for cutting and exhibition. It endures the sun and wind well, and opens

perfectly to the last bud in water. It blooms normally in August, but may be had late in October by delaying planting.

Price each.....20c

Princeps has received an award of Merit and Diplomas of Honor at American Institute fair, New York, 1901 and 1902, and award of Merit, Royal Horticultural Society, London, England, 1901, and Gold Medal, St. Louis World's Fair, 1904.

Gladiolus—The most attractive of all summer-flowering bulbs are the Gladioli. Wonderful improvements have been made in recent years in the size and beauty of these flowers, and our list comprises only the best selections both in our mixture and named sorts. Their cultivation is very simple, as they will thrive in any ordinary garden soil, but amply repay care and liberal feeding by enhanced size and beauty. Plant six inches apart in beds or double rows and three inches deep. They are very effective when planted among roses, shrubbery, etc. In the fall, before frost, the bulbs should be lifted, dried and stored in a cellar or some other position away from frost, for planting again in following spring.

Price each 5c, doz.....60c

Craig, Montana, September 26, 1905.

State Nursery Co., Helena, Mont.

Gentlemen:—We are well pleased with the seeds and they have given satisfaction.

Send statement and we will remit.

Yours truly,

CRAIG MERCANTILE CO.

H. K. Carrer, Manager.

GERANIUMS.

New Double Varieties.

- A. Raymond**—Rosy-scarlet with white eye; very large and full.
- Cratere**—Very large, full, open flowers, carmine bordered with violet mauve, veined centre.
- Double Dryden**—Light fiery scarlet, flamed white at the center.
- Flamme Poitevine**—A robust but dwarf grower, at all times completely covered with very large flowers; rose-vermilion, brilliant in color and velvety in texture.
- Mme. A. Charmet**—A beautiful fancy sort of a bright rose, marbling out to white at the edges.
- Patrie**—Very large, porcelain white, with a fine thread of bright red laced along the edge. 25c each; set of 6 for \$1.25.

GERANIUMS.—Continued.

One of our four Geranium Houses.

NEW SINGLE VARIETIES.

- M. Javoi**—Large, circular florets of glistening scarlet, flamed white at the center.
- Marquis de Pins**—A very free-flowering dwarf, with large flowers of bright carmine-rose.
- President de Lasseuce**—Violet solferino with blue shadings, the two upper petals marked red at base; unique.
- Princess Mafalda**—White center and edges with large halo of salmon-apricot; large and unusually fine.
- Qui Vive**—Magnificent orange-red; quite distinct, large florets.
- Vole Lactee**—A beautiful white, with large, round flowers.
25c each; set of 6 for \$1.25.

SIX GRAND SINGLE GERANIUMS.

- Albion**—Large single, white.
- Liberty**—White, heavily overlaid with rose, pure white marks on upper petals.
- Lumineux**—Rich carmine marked fiery red.
- Phonograph**—Very large, pale rose blotched white.
- Sentinel**—Extremely brilliant.
- Vermilion**—Red.
Price each 15c; the set of six 75c.

THREE GRAND DOUBLE GERANIUMS.

- Le Fram**—Mammoth semi-double, red shaded violet with large white marks on upper petals.
- Mme. C. Prost**—Rich rosy crimson.
- M. Jarry de Sloges**—Rose with white eye.
Price each 15c; the set of three 40c.

GERANIUMS.

Standard varieties.

- From 3-inch pots... 10c each; \$1.00 per doz
- From 4-inch pots... 20c each; \$2.00 per doz
- From 5-inch pots... 35c each; \$4.00 per doz
- Cyclope**—(Single). This variety is the fore-runner of a new race originated with **M. Bruant**. It is a vigorous grower; the flowers are of very large size with a large center of pure white which shades by a network of crimson lines into the darker color of the flower, which is a beautiful deep carmine violet; floret of beautifully perfect form.
- Divinite**—(Double Bruant). This novelty has beautiful foliage and a fine habit, and every indication points to its being a fine bedder. The bloom is lasting and not easily defaced by sun or rain; color, clear coppery orange-red; semi-double, and of the best Bruant type; very distinct.
- M. Chapoton**—(Single Bruant). An unusually large, round and showy single variety; bright rose-pink with white mark; has an enormous truss of blossoms, probably the largest extant, extra good; nothing finer among Single Bruants.
- Alcibiades**—(Double). One of the best and showiest of the fancy Aureoles; bright rose color with white center; flowers very large, one of the finest in the fancy section, and a very strong grower.
- Vestale**—A dwarf, double, white with light green foliage, and very strong in growth. This promises to take a first place among double whites.
- Comtesse De Chantemerle**—This magnificent novelty of the Bruant race has both floret and truss of the grandest size; the color is of an exquisite freshness, Aurora Salmon, very clear at the center, shading out paler at the edges of the petals; it is a fine grower and a free bloomer. One of the most beautiful of **M. Bruant's** introductions.
- Edmond Rostand**—The only magenta colored flower in the Bruant section; very rich and bright; large single florets.

GERANIUMS.—Continued.

Fleur de Rose—An improvement on Jean Viaud. It is deeper in color; the form of flower is more perfect.

Richmond Beauty—A very brilliant scarlet crimson, with large white feathering on the top upper petals; floret of very fine rounded form; colors very clear and striking; an extremely showy single novelty.

Jean De La Brete—It has large Camellia-shaped florets of rosy carmine, shading to scarlet and vermilion, and is marbled in white at the center; a near approach to the aureole section; one of the finest and showiest varieties of recent introduction; large, dark and rich.

Berthe De Presilly—A very robust, dwarf, branching variety, completely covering the plant with bloom continuously. The flowers are large, semi-double, of exquisite brightness, silvery rose color, of the most beautiful shade; this variety is equally good for specimens in pots and for massing.

Jean Madeline—This variety has enormous trusses, florets semi-double and a color that is new and unsurpassed among those of the Bruant race—bright, pure rose; very distinct and new, back of the petals pure white. Extra fine for pots, and a splendid bedder also.

Gen. Leonard Wood—Another single variety, unique in color, and of fine size and form of floret, it is of a bright crimson-rose color, with large white blotch; very bright and fine; belongs to the aureole type, in an entirely new combination of color.

M. Alfred Erckener—An admirable color in a new double variety, bright orange-scarlet of yellowish shade; produces very large trusses in profusion on a dwarf growing plant. Promises extremely well as a bedder.

M. Paul Blondeau—This variety is robust, compact, and free-growing; has long, stiff stems, large trusses and florets, probably the very largest among double geraniums. The color is magnificent—pure, fresh, rose color. The flowers are semi-double, and open as beautifully and easily as the round-flowered singles. It is a new variety of the highest order, a duplicate of the lovely Rosa Bonheur in a double.

Marquis de Castellane—(Single). Shapely dwarf grower, flowers about 2 1-2 inches in diameter, two beautiful shades of red. Very distinct novelty.

Clyde—(Single). Scarlet Geranium of Bruant type, floret immense; 2 1-2 to 3 inches in diameter; trusses 14 to 16 inches in circumference.

Mme. J. Cibiel—(Single). Flowers of very largest size, round and perfect, center bright pink, white eye and large white border. Plant compact and free; beautiful fresh color; does finely indoors and out.

M. P. Morlan—(Single). Plant very free; enormous trusses; flowers of rosy salmon; center white, surrounded by halo of bright salmon.

Mlle. L. Moyot—A variety with striped flowers, very distinct from others of its class; large white center, bordered with vermilion; very free; constantly in bloom.

Madonna—Very large flower, semi-double, of unusually good form; pure snow white. A nice, compact grower. Raised by M. Rozain-Boucharlat, who has given us some of our very finest varieties.

Le Barde—A robust, short-pointed grower, carrying large trusses of blooms freely. Florets large, semi-double, of good, regular form. Color deep China pink. The upper petals have a mark of lilac white. Fine, new variety.

Precursor—This variety is the precursor or forerunner of the White Bruants. It is a strong grower, a very free bloomer, has fine trusses of single white flowers of very large size and spreading form; blooms throughout the year. This promises to lead all others in the whole bedding section.

Robert Charlie—Very compact in growth, extremely free. Flowers semi-double, throwing six or eight large petals. Color, rosy mauve, marked white upon the upper petals, an entirely new color in the Bruant section. Makes a splendid specimen plant as well as a fine bedder.

S. A. Nutt—Still the favorite dark crimson sort. For years this variety has had no compeer, and it is today practically unrivalled. An ideal bedding variety.

Jean Viaud—(Semi-double). The grand pink bedder, of Bruant type; soft pure pink, semi-double, with two white blotches; dwarf, stocky grower, rigid stems, large trusses, perfect florets, a continuous bloomer; the plant being covered with flowers throughout the season. The finest double pink variety we have ever seen. Considered by experts positively the finest Geranium for all purposes ever introduced.

GERANIUMS.—Continued.

Hubert Charron—(Double). White center; each petal is edged with rosy red. Free growth and bloom.

M. Jules Dispot—(Double). Large flowers and very fine trusses. Rich violet like in color, changing to crimson and shading to lilac at center.

Gen. Wolseley—Clear rosy red. Single. Flowers 2 1-2 inches in diameter.

Richelieu—(Double). Large trusses, formed of very large semi-double florets; crimson scarlet with shadings of fiery scarlet.

Ludovic Corret—(Double.) Dwarf free grower; beautiful ruby red in color; most of the petals marked fiery red at base.

J. V. Varonne—(Double.) General color carmine, center white with shadings of rosy lilac.

M. Canovas—(Double). Immense trusses of very dark velvety scarlet with dark crimson shadings. Flowers large on rigid stems. A fine grower and free in bloom.

Mountain of Snow—Silver edge; vigorous grower. A fine foliage variety.

Happy Thought—Large yellow blotch in the center of the leaf, with an outer band of green; flowers rich rose.

Rose Geraniums—10c each.

Ivy Leaved Geraniums—The demand for this family of Geraniums is constantly increasing. The following varieties include the very newest:

Achievement—Color, pure self rose, with white eye, immense in size.

Leopard—A splendid grower, remarkable in size, produces its bloom in abundance, color, a dainty lavender pink, flamed and dotted in crimson.

Mrs. Hawley—Flowers large, in fine trusses on long stems, color, a beautiful rose.

Mrs. J. G. Day—Intense glowing shade of glowing crimson.

Souv. de Chas. Turner—Deep bright pink, still unexcelled.

Col. Baden Powell—Pearlish white.

Price of any of the above varieties, 10c, 20c, and 35c each.

Cascade County Fair Association, Great Falls,
Secretary's Office, Oct. 20, 1905.

State Nursery Co., Helena, Mont.

Gentlemen:—This is to certify that Jas. W. Austin, of Hardy, won first prize at our County Fair this year for the best exhibit of vegetables grown from your seeds as per your offer of \$10.00. Thanking you for the same,
I am,

Very truly yours,
CAL. HUBBARD, Secy.

Heliotrope.

Heliotropes — The fragrant blossoms of this well known plant are universally admired; they can be successfully grown indoors or in the garden with proper care, and come in the pale lavender up to the deep violet shades.

Each..10c and 35c

Hydrangea—Fine plants.

Price, each.....50c, 75c and \$1.00

Hibiscus—Magnificent double crimson.

Each.....25c to 50c

Hollyhocks in our Nursery.

Hollyhocks—A favorite old-fashioned plant; hardy. Chater's fine strain of double varieties, the best grown. Pink, deep rose, crimson, blood red, canary yellow, salmon. One year old root, price, each 25c. Doz. \$2.00.

Ivy—(English). Each.....15c and 25c

Ivy — (German). This well-known tender climber is indispensable as a vase, basket or window-box plant in the summer, and the best vine for the window garden at all seasons.

Each.....10c. Doz. \$1.00

Maderia Vine—Well known trailing or climbing plant.

Each.....15c and 25c

Oleanders—Beautiful flowering shrubs for house, and improve by being put outdoors in their pots during warm weather. White and pink.

Each.....25c, 50c, \$1.50 and \$2.00

Pelargoniums.

Pelargoniums—(Lady Washington Geraniums)

These have always been favorite plants, but the new and improved varieties which we have the pleasure of offering will give them added popularity. The size and beautiful coloring of the flowers are remarkable. They are also exceedingly free blooming, and when in full bloom a plant is completely covered with a dense mass of the showiest flowers, forming a huge bouquet. Although pelargoniums do not bloom constantly, as the common geraniums do—blooming only about two months in the spring—nothing compares with them when in bloom. We know of no flowering plant that will give more satisfaction. They make beautiful house plants, and there is nothing showier for Easter.

Mme. Thibaut—An exquisite variety. Very large, round, perfect flower, semi-double. White with large pinkish salmon blotch in center of each petal, giving the effect of a flower with beautiful silvery band through the center, with broad white edge and large white center. Extra.

Mrs. Robt. Sandiford—Very large flower, semi-double, pure snowy white, with exception of very slight carmine veinings on upper petal.

Crimson King—For freedom of flowering, depth of color, and good habit, we have no hesitation in predicting that this variety will become one of the most popular for market purposes. As its name denotes, it is of a most intense crimson color.

W. C. Boyle—Of a pleasing shade of salmon; large, bold, beautifully crimped flowers.

Admiral—Lower petals deep rose, upper petals dark blotches, marginal scarlet rose.

King Oscar—Two upper petals blush pink, lower petals blotched maroon and red; very free flowering.

Albert Victor—Rosy red with white throat.

Decorator—Crimson and maroon; very showy.

Champion—White upper petals blotched maroon.

Prince Henry—Light pink, two upper petals blotched rich velvety maroon.

Double Petunia.

Petunias—(Double). Our newest strain selected from the largest and handsomest improved varieties, in the finest colors and markings.

Each.....10c and 25c

Petunias—(Single.) The finest fringed blotched and shaded varieties.

Each.....10c. Doz. \$1.00

Primula Chinensis—(Chinese Primrose). Very satisfactory and well known winter and spring flowering plants. Beautiful shadings. Each.....35c and 50c

Primula Obconica—A very free blooming variety, with pale lilac blossoms.
Each.....25c to 50c

PANSIES.

S. N. Co.'s Peerless Pansy.

We have for years been noted for the superior quality, size and variety of the Pansy plants we have supplied to our patrons. Our seed is imported direct from the best Pansy specialists of Europe, and as a consequence we have results attainable where poor quality of seed is used. We do not grow or offer cheap varieties at cheap prices. Our plants are good quality and good value. Order early. Plants ready May 1st.

Dozen50c

Hardy Phlox—Few plants give better satisfaction to the amateur than hardy Phlox. They thrive in any ordinary rich soil. The ease with which they are cultivated, their entire hardiness, and the extended season of blooming, combined with the varied and beautiful coloring, make them particularly valuable for garden planting. We offer a carefully selected collection of twelve varieties.

Price, large roots, each.....25c

Hardy Garden Pinks—Well grown clumps that will blossom freely first year.

Each.....25c. Smaller plants 10c

Tradescantia—(Wandering Jew). Two varieties. Each.....10c to 15c

Tuberoses—Our select Excelsior dwarf; dry bulbs. Each.....5c

The same, started in pots, each.....15c

Tigridia—A gorgeous summer flowering bulb.

We would like to see these more extensively grown. The bulbs may be planted and given the same treatment as Gladioli.

Each.....5c. Doz. 50c

Vinca Major—A very desirable plant for hanging baskets; beautifully blotched and veined with two shades of green.

Each.....10c to 35c

Vinca Major Variegata—Similar to above, but with an irregular, creamy white border.

Each.....10c to 35c

Violet, Princess of Wales—This is probably the best Violet for our climate, certainly more generally grown than any other Violet.

Price.....10c and 20c

Verbenas—Our mammoth varieties make a gorgeous display and succeed well in Montana, staying in blossom after arrival of the first frosts. Pink, white, purple, scarlet.

Each.....10c. Doz. \$1.00

Vinca Minor—(Myrtle). Extensively used for planting in cemeteries, where its deep ever-green foliage is especially appreciated. Well grown plants or clumps.

Each.....50c and 75c

Oxalis Buttercup.

Oxalis Buttercup—We have a fine lot of plants and bulbs of this pretty house plant.

Plants, each.....25c

Bulbs, each.....5c. Doz. 50c

State Nursery Co., Helena, Mont.

Gentlemen:—Please send me by return mail 25c worth of mixed pansy seed. The trees and bushes came safely and we are very much pleased with them.

Very respectfully,

MRS. G. B. BOURNE,

Hill, Montana, April 22nd, 1905.

Read what the originators say of the

New Hardy Annual

Collection of 8 Varieties

Nicotiana Sanderae

Purple, white, pink, dark and light red, crimson, violet, salmon.

Gold Medals have been awarded to these varieties by the Royal Horticultural Society at the Temple Show, May 31, 1904; at Holland House, July 12, 1904; at the Temple Show, 1905; also at the Royal Botanical and Horticultural Society of Manchester, June, 1905.

These are the hardy annuals of the century. As a useful and beautiful garden plant, they have no equal, and are unapproachable—even the great beauty of *Nicotiana Sanderae* is quite eclipsed by these new hybrids, and the culture is simplicity itself. The most easily cultivated annual is not more readily grown than these magnificent,

new *Nicotianas*. They thrive in any soil or situation, either in pots, boxes, or the open ground; and if wanted for the decoration of the cold greenhouse or conservatory there is no difficulty in having a glow of colors—pink, mauve, heliotrope, purple, crimson, rose, and white—in huge masses for cutting all through the spring months. As a cut flower, they are charming by daylight or artificial light. They have no equal—not even the beautiful rose purple, and white *Calanthes* can surpass this grand plant in a cut state, lasting well and opening their blossoms in water. Plants raised from seed sown in October last have been in bloom since the first week in March, and will continue to flower until November next, producing new flowering stems from the base of the plant.

Plants raised in February, and grown on in cold frames, will flower in May; and if planted in the open ground, will continue to bloom all the summer and autumn, making extraordinary branched specimens, and retaining their leaves to the ground.

There is nothing that we know of among *Nicotiana* so floriferous, gracefully and copiously branching in habit. The whole plant is laden with flowers from the base to its summit; the handsome blossoms are produced in hundreds on a single plant. Its hardiness and character of producing flowers continuously are very great recommendations, and we know of no plant that gives such a great abundance of flowers for the little care it is necessary to bestow on it. It is a plant for universal use, and every one can grow it successfully.

These hybrids have been produced by patient effort in selecting and hybridising of *N. Sanderae*, *N. alata*, *N. affinis*, and *N. Forgetiana*, with the result that we are now able to offer in so many bright colors these handsome, showy varieties, which wherever exhibited have been the admiration of all beholders, and been awarded the highest possible honors. They will prove a most valuable acquisition, and be in greater demand even than the exceptionally useful *N. Sanderae*.

[Extract from Moller's Deutsche Gartner-Zeitung, September 9th, 1905.]

“At the Darmstadt Exhibition *Nicotiana Sanderae* made a fine display. They dazzled the eye by the brilliancy of the dense mass of large, many-colored flowers. In how many ways they will be used in the future nobody dreams of today.”

THE FLORISTS' EXCHANGE (New York), November 12, 1904.

“The vase of *Nicotiana Sanderae* from Messrs. Sander & Sons, St. Albans, England, was much admired, and was considered well worthy of the recognition it received.”

We are pleased to be in a position to offer plants of these beautiful varieties. Price, each, any color, 50c. The set of eight varieties, \$3.00.

Kentia Fosteriana—Very similar to Balmoreana, but growing taller and having heavier foliage. Each.....75c to \$8.00

PALMS

Latania Borbonica—A beautiful Palm with fan shaped leaves. It is easily grown.

Each.....75c to \$7.50

Arica Lutescens—Glossy green leaves gracefully curved on slender stems.

Each.....\$1.50 to \$6.50

Phoenix Reclinata—A fine, large growing Palm of easy cultivation, and one that does not need as close attention as many varieties.

Each.....\$1.00 to \$4.00

Cocos Wedelliana—The most elegant and graceful of the smaller Palms, the leaves being very finely "cut."

Each.....75c to \$2.50

Kentia Balmoreana—In our estimation the most useful "every day Palm" grown; very graceful and hardy.

Each.....75c to \$10.00

View of the Palm House.

Montana Grown Roses

Baby Rambler.

THE NEW BEDDING ROSE.

The Baby Rambler,

or the Everblooming Dwarf Crimson Rambler.

Mme. Norbert Levavasseur—This is without question the most important addition to our list of dwarf bedding Roses, and a Rose which is destined to become more popular for bedding purposes than any variety now grown. It is a cross between Crimson Rambler and one of the freeflowering Polyantha varieties, producing large trusses of bright crimson flowers similar to the Crimson Rambler, but is not of climbing habit, it forms a dwarf compact bushy plant not over 18 inches high, with clean dark green foliage which is never attacked by disease or insects and is perfectly hardy, but the most unique and novel feature about it is the phenomenal freedom with which it produces its flowers, in this respect it outclasses any Rose of any type known, the plant is never out of bloom, being one of the first to flower in spring, and continuing to bloom without interruption until stopped only by the most severe frost late in the autumn, and if grown under glass it will flower the year round.

Each.....35c and 50c

New Rose, Killarney—A charming Rose of robust growth and free branching habit, flowers profusely throughout the season; the blooms are large, the buds very long and pointed, petals very large and of great sub-

stance; color, flesh-shaded white, suffused pale pink.

Each25c

The New Red Rose, Richmond—This Red Rose has won several prizes and has completely displaced the Liberty Rose. We are growing an immense stock of this Rose, intending to devote two greenhouses to its cultivation for cut flower purposes.

Price, plants in pots, each.....25c

Sunrise, the New Rose—Sunrise has taken the first honors wherever shown. In close bud form it shows a deep coppery-pink, but as the flower opens the inner side of the petals shade from a clear yellow to a deep copper, making a very pretty color effect. The fragrance is delightful, much the same as the old Rose, Bon Silene. The young foliage comes a copper-bronze, and as it grows older changes to a deep green. This Rose has a good future, having been thoroughly tested, and all the qualities that make a good Rose are in the "Sunrise."

Plants in pots, each.....15c and 25c

RUGOSA ROSES.

Rosa Rugosa Rubra—Foliage shiny bright green, flowers deep rose, produced in clusters. Beautiful bright red berries in autumn. 2 year-old bushes.....\$1.00

MOSS ROSES.

The Moss Rose is as hardy as any Rose can be, and an extra vigorous grower. They are much admired on account of their bright, healthy foliage and mossy-like covering of the buds. While they bloom but once a year, the flowers are large, beautiful and plentiful.

ENQUIRIES AND ADVICE.

We are always at the service of our customers who desire our opinion or advice on gardening matters.

Livingston, Mont., April 27, 1905.

Dear Sir:—Received the plants and roses in good condition. I am very well pleased with so good plants. They are better than I expected.

Yours truly,

J. P. JOHNSON.

American Beauty—This grand old Rose still ranks as our best for the garden; single plants have been known to produce dozens of well developed flowers the first season; our stock this year is exceptionally good. Price, 2-year-old bushes \$1.00 each; \$10.00 per doz. Three plants will be sold at dozen rates.

HARDY HYBRID PERPETUALS.

Anna de Diesbach—Brilliant rose color, with long, pointed buds and large, perfectly formed blossoms; delightfully fragrant. A vigorous grower and persistent bloomer.

Each.....20c and 50c

Ulrich Brunner—Splendid upright grower, with bright, healthy foliage. The flowers are of good size and fine form; color cherry red.

Each.....20c and 50c

Mrs. John T. Laing—A grand free blooming Hybrid Perpetual, with fine flowers of soft, delicate pink

Each.....20c and 50c

General Jacqueminot—The well known "Jack" and still the favorite among the dark red roses, being of a rich scarlet crimson. A very satisfactory garden rose.

Each.....20c and 50c

Mad-Planter—This is the hardiest of all roses, not requiring any protection during winter. It bears hundreds of snow white, fragrant flower and is unequaled where a hardy white rose is needed.

Each.....20c and 75c

Alfred Colomb—Justly celebrated as one of the very finest; extra large, round flowers, very double and full, color clear cherry red, passing to bright, rich crimson, very fragrant.

Each.....25c and 50c

Clio—Two first-class certificates; award of merit Royal Horticultural Society. This variety is of very vigorous growth, and has large, handsome foliage. The flowers are flesh color, shaded to the center with rosy pink; they are very large, of fine globular form, and freely produced. A grand addition in the style of Baroness. Unquestion-

American Beauty.

ably the finest of all Roses for flowering in pots and forcing.

Each, in 3-inch pots.....20c

Captain Christy—The flowers are of magnificent form, very double and stand erect in their martial bearing. The color is a flesh delicate pink, with deeper shading in the center of the flower, the whole flower possessing a bright satiny appearance. A desirable variety. Certainly the most beautiful Rose of this color we grow. It is a free bloomer.

Each.....20c and 50c

Dinsmore—Of good color, fine form, profuse bloomer. Stands the rigors of our Western winters without protection. It is a vigorous, healthy Rose, of dwarf, branching habit, and is simply loaded with flowers all summer long. The flowers are large, perfectly double, and of a dazzling scarlet crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses. We have proved the Dinsmore to be entirely

- hardy. It blooms incessantly, and is one of the most beautiful of bedding Roses.
Each20c
- Paul Neyron—One of the largest roses in cultivation, and a very prolific bloomer; color deep clear rose, and very fragrant. A strong grower and hardy.
Each.....20c and 50c
- Magna Charta—A general favorite, prized on account of its strong, upright growth, fine foliage and magnificent bloom; color bright pink suffused with carmine. Each.....25c and 50c
- Persian Yellow—The finest hardy yellow rose grown; deep golden yellow; semi-double. Blooms in June and July; hardy everywhere.
Each.....20c and 50c
- Coquette des Alps—A lovely, pure white Rose. Very full and free in flower. Delicious fragrance.
Each20c

TEA ROSES.

- Bride—A beautiful white Rose of perfect form and extra size. The buds are long pointed, very handsome, opening up beautifully; delightfully scented. Very popular. Each.....20c and 50c
- Bridesmaid—The most popular pink Tea Rose. We grow thousands of these for cut flowers; very desirable for outdoor growing. A delightful shade of bright pink; free flowering and easily grown.
Each.....20c and 50c
- Perle des Jardins—A yellow Rose of perfect form and of deep, rich fragrance. The best yellow Rose grown. Each.....20c and 50c
- Kaiserin Augusta Victoria—Soft pearly-white, tinted with just enough lemon in the center to relieve the white; remarkably fragrant, beautifully formed flowers on long, graceful stems; a strong, free, healthy grower, with bold, beautiful foliage.
Each.....20c and 50c
- Mad. Abel Chatenay—Grand new perpetual blooming variety of great beauty, the best of its color, which is rosy carmine, shaded darker. Does remarkably well in open ground. Flowers are full, deep and double. Each.....20c and 50c
- Golden Gate—This is a beautiful free blooming and healthy Tea Rose that we can recommend to everyone desiring large flowers, long stems and continuous bloom. The buds are long and pointed, opening out into a well-shaped flower of creamy white, delicately tinged with rose.
Each.....20c and 50c
- White Golden Gate—A beautiful ivory white.
Each.....20c and 50c
- Liberty—Dark red; flowers large with thick, heavy petals. A continuous and free bloomer.
Each.....20c and 50c

BEDDING ROSES.

- The following three varieties are very strongly recommended for bedding, in the same manner you would a Geranium or any other bedding plant. These little Roses are a mass of blossom until late in the fall.
- Gruss an Teplitz—This is the prettiest of the Summer Blooming Roses; we strongly recommend it for the garden; small plants blossom throughout the summer as free as a Geranium. Color a rich velvety crimson. This rose might well be called an ever-blooming "Gen. Jack." Price.....20c
- Hermosa—Often called "Pink Daily Rose," because it is always in bloom and beautiful every day. The color is a pleasing shade of pink, and the fragrance very pleasing. We consider this the very best outdoor rose where a quantity of blossoms is desired, and it should find a place in every garden.
Price20c

- Clothilde Soupert—The best known and most popular Poyantha. Very free blooming; outer petals of a pearl white, shading to rosy pink in the center.
Each20c

CLIMBING ROSES.

Dorothy

Perkins—

In general habit closely resembling Crimson Rambler, but of a beautiful shell pink; the trusses are made up of from 20 to 30 flowers; we have been growing this Rose for the past two years and can now strongly recommend it to our patrons as the best Climbing Rose we know of. Strong two-year-old plants 75c ea; small plants in pots 20c ea.

Crimson

Rambler—

One of the grandest hardy roses ever introduced. Flowers glowing crimson, produced in large clusters, and almost covering the plant from the ground to the tips of the branches.

Each
...25c and 50c

Dorothy Perkins

- Baltimore Belle—One of the best climbers for Montana; perfectly hardy. Color bright pink.
Each.....20c and 50c
- Queen of the Prairie—An old favorite; rapid grower. Color bright red. Each.....20c and 50c

Note—All Roses should be protected during winter. We have found clean long straw very satisfactory for this purpose.

State Nursery Co., Helena, Mont.

Gentlemen:—The plants I purchased of you were received in excellent shape. To say I am more than pleased with them don't begin to express it! I am indeed very grateful and will lose no opportunity of recommending you to my friends.

Very sincerely,

KATE E. CONNELLY,

Fort Benton, April 20th, 1905.

Hardy Shrubs, Vines and Roots

You are cordially invited to visit our Nursery—where everything we advertise may be seen growing.

Plants under this heading cannot safely be moved after May 15th.

Bridal Wreath.

Plants listed here have proven well adapted to this climate.

Clematis—(Jackmanii). Considered the grandest flowering climber in use. Blossoms of an intense violet purple shade with a rich, velvety appearance.

Each\$1.00

Clematis—(Gipsy Queen). One of the finest of the dark purple varieties; strong grower and free flowering.

Each\$1.00

Clematis—(Paniculata). Grows and thrives anywhere, and it is a very rapid grower and profuse bloomer; flowers are pure white, borne in large clusters. Its extreme hardiness, bright green foliage and delightfully fragrant flowers make this one of the finest hardy climbing plants in cultivation.

Each.....50c and 75c

Chrysanthemum Maximum—(See under Bedding Plants.)

Each25c

Coreopsis Lanceolata Grandiflora—(See under Bedding Plants.)

Each25c

Boltonia—(False Chamomile). Among the showiest of our native hardy perennial plants, with large, single Aster-like flowers. The plant is in bloom during the summer and autumn months, and with its thousands of flowers open at one time produces a very showy effect. Each.....25c

Doronicum—One of the prettiest of our early flowering perennials. Color bright yellow.

Each25c

Pinks—We have a good stock of these pretty, old-fashioned flowers, and can supply plants that will blossom this year.

Each25c

Rudbeckia—(Golden Glow). The grandest hardy perennial introduced in years. Grows 5 to 7 feet tall and flowers from early summer until frost. Flowers are produced on long stems in enormous quantities and resemble golden yellow Cactus Dahlias. Young plants planted out in spring will bloom freely the first season.

Price, each.....25c

Sweet William—Large clumps, each.....25c

Hollyhocks—One year garden grown roots.

Each25c

Dielytra—(Bleeding Heart). See under Bedding Plants.

Each25c

Honeysuckle—(Russian). A very hardy variety of shrubby growth; will stand the winters with impunity, makes a rapid growth and is a splendid acquisition to the garden. Blossoms white tinged with pale pink.

Each.....50c to \$1.00

Honeysuckle—(Monthly Fragrant). Fine, rapid-growing variety for trellises; flowers large and fragrant; color red and yellow; constant bloomer.

Each.....50c and 75c

Honeysuckle—(Halleana). One of the finest Honeysuckles grown. Flowers white and yellow. Free blooming and fragrant.

Each.....50c and 75c

Hop Roots—Frequently used where one requires a fence, arbor or building quickly covered with foliage.

Roots, each.....25c

Lilac—Purple and white. Lilacs do well in Montana and should be more generally grown. The purple varieties appear to make a more rapid growth than the white.

Each.....25c to \$2.50

Iris.

Iris—Fancy French and German varieties.

Each 15c. Common Flag, large clumps, 25c each.

Peony—Mont Blanc

These grand flowers are gaining in favor every year and many new ones have been introduced.

Queen Victoria—Outer petals, light rose; center, cream, tipped with pink; fragrant, large and long stem.

Achillea—Outer petals delicate rose; center, flesh pink, fading to cream; a chaste beautiful variety.

Roseum Grandiflorum—Bright rose, with silvery reflex. Strong grower, very fragrant, free bloomer.

Rubra Triumphans—Brilliant shade of crimson, solid color. Vigorous, erect growers, the best early red Peony.

Rosa Grandiflora—Outer petals deep rose; center, light rose and pink. Extra free bloomer, delicate fragrance.

Lohengrin—(Mid Season). Outer petals deep rose; center light rose with few crimson tipped petals. Large flower of rich fragrance.

Baron Rothschild—(Mid Season). Deep rose with reddish tinge; center light rose shaded cream. Free bloomer with long stems.

Humei—(Late). Entire bloom pure deep rose, large heavy bloom. Fragrance one of the finest.

Grandiflora Rubra—(Late). Deep blood red, solid color, long stem. Largest and latest of all.

Festive Maxemar—The grandest of all creamy white, with carmine center.

Mont Blanc—This grand white, should be in every collection.

Alba Sulphurea—A beautiful creamy white, very fragrant, lasts a long time when out. Price, each.....50c, 75c and \$1.00

Note—Peonies should not be planted after May 10.

CHINESE MATRIMONY VINE.

A vigorous growing hardy climbing vine that may be used anywhere that a vine is needed for training to trellis, fence or wall. Every new shoot becomes filled with small purple flowers, which are remarkably handsome, and are followed by brilliant scarlet berries nearly an inch long; is already a popular climbing plant. Each \$1.00.

Snowball—(Viburnum). An exceedingly handsome shrub; flowers pure white; globular flowers. One of the most valuable and ornamental of shrubs, and splendid decorative for Montana. Each.....50c to \$1.50

Hemerocallis Flava.

Flava—(Lemon Lily). A pretty plant, with long, narrow leaves and flower-stalks two to three feet high. These are crowned by beautiful lemon-colored flowers, three to four inches in diameter, and delightfully fragrant. 25c.

Kwamso—(Double Orange Lily). Large, double, copper-colored flowers; in bloom all summer. An excellent plant for the hardy border, and one that grows and blooms well in almost any situation. Each.....25c

Spirea—Bridal Wreath. We don't know of a prettier shrub for the garden or cemetery than this old-fashioned bush with its long garlands of small white flowers.

Fine 2-year-old bushes.....75c and \$1.00

Spirea Bumalda—A very handsome dwarf variety, growing only about a foot high, blooming from June until October—flowers rosy pink, borne in clusters. Each.....25c

Spirea Opifolia—Beautiful foliage, flowers white, borne in clusters above the foliage, making it an ideal bush for garden or cemetery. Price.....75c and \$1.00

Virginia Creeper—A splendid vine for porches, trellises, walls and fences, giving a beautiful color effect in the fall.

Large roots, each.....75c and \$1.00

Clematis Jackmanii—See Page 19

Cherry Currant—We have a fine lot of this mammoth currant. Each25c, 50c

White Grape—The best for jelly. Each 25c, 50c

North Star—When this variety was first introduced we recognized its merits. It is a good yielder; fruit larger and sweeter than any other red currant we know of.

Each.....15c, 25c and 50c

RASPBERRIES.

We have the following varieties: Cumberland (black), Black Diamond, Golden Queen (yellow), King (red), Louden (red), Miller (red), Gregg's Black, Couthbert (red).

Each.....5c and 10c

GOOSEBERRIES.

Columbus—This is a large, very hardy berry, has been grown by us for years in an unsheltered position. Each ..15c, 25c and 50c

A View in Our Nursery.

Blackberries—Each35c

STRAWBERRIES.

Glen Mary—The finest variety, considering size; fine quality; very productive; berries very large.

Marshall—Very early, immense size, choicest of all

Ruby—Very large and a good yielder.

Mexican—Ever bearing.

Price 25c doz., \$2.00 per 100

Shade & Ornamental Trees

Our large stock and improved facilities for packing will enable us to supply well rooted and shapely stock that will grow.

Ash—(Mountain). A handsome, ornamental, flowering tree, and bearing large branches of bright red berries in early fall. Splendid for lawns; 6 to 9 feet.

Each.....\$1.00 to \$1.50

Ash—(American White). While this tree is slower in growth than the soft wooded trees, it is without doubt the best of all shade trees for Montana, standing our high winds with impunity; 6 to 7 feet high.

Each.....\$1.00 to \$1.25

Balm of Gilead—7 to 9 feet. Each.50c to \$1.00

Birch—(Cut Leaved, Weeping). One of the prettiest ornamental trees extant, forming a beautiful specimen if properly cared for; hardy; 6 to 7 feet.

Each.....\$2.00 to \$3.00

Box Elder—Rapid growing shade tree with ash leaved foliage of a light green; 6 to 9 feet.

Each.....50c to \$2.00

Elm—We have a good stock of this handsome tree.

Each.....\$1.00 to \$2.00

Maple—(Red). This Maple we have found perfectly hardy with us. Our stock is limited. Fine trees, 6 to 8 feet high.

Each.....\$1.00 to \$1.25

Poplar—(Carolina). A good tree for Montana, of rapid growth and makes a fine shade. This variety is being planted extensively in many of our Eastern cities and gives good satisfaction; 7 to 9 feet.

Each.....50c to \$2.00

Poplar—(Silver Leaved). Another good tree for Montana, having dark green maple shaped leaves, with white on the under side; rapid grower; 7 to 9 feet.

Each.....50c to \$2.00

Willow—(Golden). A very pretty variety of the Willow family; easily grown, and quite ornamental; 6 to 10 feet.

Each.....75c to \$3.00

Willow—(Russian). A strong, upright tree of rapid growth; very serviceable; 6 to 10 feet.

Each.....75c to \$3.00

Spruce, Colorado Blue—A rare elegant tree with foliage of a rich blue. One of the most

distinct and striking of all the Spruce family. A free grower and perfectly hardy.

Each.....50c

Arbor Vitae, American—One of the finest evergreens.

Each.....25c

Willow, Wisconsin—(Weeping). A large tree with long, drooping branches, similar to the Babylonica, but much hardier.

Each.....\$1.00

Carolina Poplar.

Inspection Certificate Montana State Board Horticulture.

This is to Certify, That the growing nursery stock and premises of the State Nursery Co. situated at Helena, Mont., have been inspected according to the laws of Montana and the rules and regulation of the State Board of Horticulture, and no indications have been found of dangerously injurious insects or plant diseases on such stock or premises.

FRED HOLROYD, Inspector 2d Dist.

This certificate is void after April 11, 1907.

CUT FLOWERS

We have forty-three greenhouses, comprising 105,000 square feet of glass, devoted to growing plants and flowers, etc., and can certainly supply your needs in this line if any firm can. During the year we have the leading flowers usually in demand, the principal being Roses, Carnations, Chrysanthemums, Easter Lilies, Hyacinths, Lily of the Valley, Violets, etc.

Cut flowers vary in price throughout the year, according to supply and demand. During the holidays and festivals of the year and in the winter time they are always dearest. When plentiful we give our patrons the benefit of low prices. When scarce we are obliged to advance our rates. Our prices, however, will always bear favorable comparison with those of other cities. We pack flowers so they will carry well for from three to four days. Customers desiring a large quantity of any particular kind of flower for special occasions will secure better service by placing their orders early, so that flowers may be reserved. Persons ordering by telegraph should give us permission to substitute in case we cannot supply the particular flower desired.

CARE OF CUT FLOWERS.

When coming from a distance, clip the stems, place them in water, and put away in cool place for short time. By clipping the stems and placing in fresh water each morning, they can be kept for several days.

Floral Designs for Funerals, etc.

We make up to order, on short notice, designs of all kinds, and can supply almost any emblem desired. Following are some of the most popular forms used:

- | | |
|----------------|--|
| Crosses | |
| Anchors | |
| Pillows | |
| Wreaths | |
| Scrolls | |
| Harps | |
| Gates Ajar | |
| Broken Wheels | |
| Shields | |
| Crowns | |
| Stars | |
| Broken Columns | |
| Hearts | |
| Crescents | |

Also Society Emblems in variety and to order. Prices according to size and quality of flowers used—\$1.50 up to \$50. Those most generally supplied range from \$5 to \$25, and they can be packed so as to go safely by express to any part of the country.

DECORATION DAY.

For your assistance in observing the beautiful custom of decorating the graves on this day, we can help you with cut flowers, potted plants and bedding plants, which we make a special effort to have at that time.

Spring of 1906.

Sixteenth Year.

Seed Department

Greetings:—It is with the greatest pleasure we present our Annual Seed Catalogue again to you, as our ever increasing business in this department shows that our efforts to please you have borne fruit abundantly. Your patronage has enabled us to build up the biggest institution of its kind in the West. By square dealing in the future as in the past we will strive to merit your continued patronage.

Our seeds we believe to be as good as can be obtained anywhere, and our facilities for testing same unexcelled.

Our descriptions are brief and accurate.

Our illustrations are as true to nature as possible.

We catalogue only such seeds as have proven suitable to our climate.

We trust that our efforts to simplify the task of selection and dignify the sale of seeds will meet with the approval of intelligent purchasers.

SEEDS BY WEIGHT:—All our seeds are sold by weight, which we believe to be the most satisfactory method.

Half pounds and over at pound rate; less than half pounds at ounce, two ounce or quarter pound rates.

Twenty-five pounds and over at 100-lb rates when quoted.

HOW TO SEND MONEY:—Remit by Postal Money Order, Express Money Order, Registered Letter or Bank Check. Postage Stamps will be accepted when the amount does not exceed \$1.00.

Your name and address should always be given. It will save vexatious delays.

GUARANTEE:—While we send out none but the best seeds, we cannot insure their growing. There are various causes why the best seeds won't grow, such as sowing too deep, too shallow, in too wet or dry soil; insects of all descriptions destroying the plants as or before they appear; wet weather, cold weather, frosts, etc. For these reasons we cannot guarantee seeds. If the purchaser does not accept the goods on these terms they are to be returned at once at our expense.

Every order is filled immediately on arrival, or is acknowledged if, under rare circumstances, its shipment is likely to be delayed for a day or two. If goods, notification of shipment or acknowledgment of order is not received by the customer after a reasonable lapse of time, it may be assumed that the order has miscarried, or that the name or address was omitted from the order. We will, when notified of such a case, use our best efforts to trace it without delay.

We fill orders of all values from the smallest to the largest, and all receive the same careful and prompt attention.

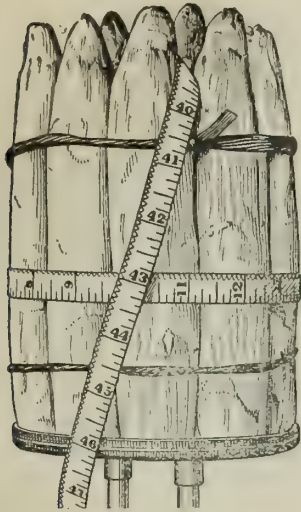

SEEDS PREPAID:—All Flower and Vegetable Seeds sent prepaid to your Railroad Station or Postoffice, except PEAS, BEANS and CORN, which are at purchaser's expense.

VEGETABLE GARDEN TIME TABLE FOR PLANTING SEEDS, FROM PRACTICAL EXPERIENCE IN MONTANA

Asparagus.....	From March to June
Beans (all varieties).....	May
Beets (table varieties).....	April to June
Beets (stock).....	May to June

Squash.....	May and June
Sunflower.....	May
Tomato (hot bed).....	March
Turnips.....	April to July
Rutabaga.....	May and June

This table is for general use in Montana and has been compiled after much practical experience in vegetable gardening.

**ASPARAGUS.**

One of the earliest spring vegetables. It requires a deep, rich, mellow soil. Sow early in the spring in drills 2 inches deep and 12 inches apart if to be cultivated by hand. One ounce of seed will plant 60 feet of drill and will make about 500 plants. When the plants are one or

two years old (one year is best, as a better crown will form) transplant to rows 5 feet apart and 18 inches apart in the row.

Cover the soil 4 to 5 inches deep with well rotted manure and disc well, then plow as deep as possible and fine with harrow. Turn furrows 5 feet apart, about 6 inches deep. Place plants in these about 18 inches apart, with the roots well spread out. Turn a light furrow back over them and level with the harrow by cross harrowing.

Conover's Colossal—The favorite in our western market, having a pink tinge, and very fine flavor, of vigorous growth, none better. Ounce.....10c; 1b 60c

Palmetto—The plants are strong and vigorous in growth, producing large, thick, dark-green shoots, with a distinctly pointed head or tip, as contrasted with the rounded head of the other large-stalked varieties. Ounce.....10c; 1b 50c

Asparagus Plants — (See under Vegetable Plants and Roots.)

Artichoke Roots—The New Large Jerusalem Variety; producing from 400 to 1,000 bushels per acre. An excellent food for cattle, sheep and horses. Fed to milch cows, they are for the production of milk, equal if not superior to bran. But their greatest value is for food for hogs. Even the labor of feeding is avoided, as the hogs will help themselves if allowed to do so. 1 lb post-paid, 25c; 10 lb \$1.25; 100 lb \$4.00. Express or freight.

Glasgow, Mont., June 2, 1905.

State Nursery Co., Helena, Mont.

Gentlemen:—I received the wreath O. K., and was very much pleased with it. It reached me in splendid shape.

Yours truly,

MRS. M. HOFFMAN.

**BEANS Dwarf Wax Sorts.**

(2 lbs. to 100 ft. of drill.)

S. N. Co.'s Wardwell Kidney Wax—For market the best wax bean to grow early is Wardwell's Kidney Wax. It is the most prolific, entirely stringless, very tender and also a good shipper. The pods are nearly straight so that they pack nicely and always look well. Per lb 20c; 10 lb \$1.75.

S. N. Co.'s Improved Golden Wax—Is a close second, as early, stringless and very prolific, but the pods are smaller and it is not so good a shipper. Pkt 10c; 1b 20c; 10 lb \$1.75.

S. N. Co.'s Improved Black Wax—Well known and a good sort. Pods large and nearly stringless. Preferred by many. Per lb 20c; 10 lb \$1.75.

S. N. Co.'s Davis' White Wax—Is a very productive sort. Pods long, straight and thick. Beans white, kidney shaped. Per lb 20c; 10 lb \$1.75.

Keeney's Rustless Wax—White, wax-like, very productive and hardy variety, of good size and wonderful keeping quality, making it a desirable variety for market gardeners; is as near rust proof as a bean can be. Per lb 20c; 10 lb \$1.75.

Rustless Wax Bean

St. Peter, Mont., May 5, 1905.

State Nursery Co., Helena, Mont.

Gentlemen:—Accept my sincere thanks for your prompt attention given to my orders. The trees and plants arrived safely and are doing very well.

Respectfully yours,

REV. van den BROECK.

BEANS—Dwarf or Snap Green Podded.

S. N. Co.'s Peerless Long Yellow Six Weeks—Early, full, flat, green pod, an old favorite, improved. Pkt 10c; 1b 20c; 10 lb \$1.75.

S. N. Co.'s Ex. Early Refugee—Is very productive, quality unexcelled, free from string and tender. Pkt 10c; 1b 20c; 10 lb \$1.75.

Long Yellow Six Weeks Bean.

S. N. Co.'s Peerless Mohawk—Early, stands cold better than other bush varieties; largely grown for market.

1b 20c
10 lb \$1.75

S. N. Co.'s Peerless Ex. Early Red Valentine—Long, full, flat, green pods, 10 days earlier than the old Valentine.

Large pkt. 10c; 1b 20c
10 lb \$1.75

BEANS—Dwarf or Bush.

Ex. Early Red Valentine Bean.

S. N. Co.'s Peerless Bush Lima—Fine flavor, full, sweet and succulent, becoming very popular; is also an excellent dry bean; earliest of all.

Per 1b 25c; 10 lb \$2.25

S. N. Co.'s Dwarf Lima—Large white; is the earliest Lima Bean in cultivation; a great favorite for the family garden.

Per 1b 25c; 10 lb \$2.00

S. N. Co.'s Broad Windsor—This class is very hardy, and should be planted as soon as the soil is in good state in the spring. Plant four inches apart and two inches deep, in hills four feet apart. To insure well filled pods, pinch off the tops as soon as pods begin to set. 1/2 lb 15c, 1b 25c.

Cascade County Fair Association, Great Falls.

Secretary's Office, Oct. 20, 1905.

State Nursery Co., Helena, Mont.

Gentlemen:—This is to certify that Jas. W. Austin, of Hardy, won first prize at our County Fair this year for the best exhibit of vegetables grown from your seeds as per your offer of \$10.00. Thanking you for the same, I am,

Very truly yours,
CAL. HUBBARD, Secy.

BEANS—Pole or Running.

S. N. Co.'s Peerless Kentucky Wonder—An enormously productive variety; entirely stringless, large tender pods, best pole bean for market gardeners.

Per 1b 25c; 10 lb \$2.75

S. N. Co.'s Peerless Scarlet Runner—An English bean of great merit; very tender and sweet; also grown as ornamental flowering vine for trellises, etc.

Per 1b 30c; 10 lb \$2.75

S. N. Co.'s Lazy Wife's Pole Bean or Creaseback—Immensely popular, pods medium dark green color, from 4 1-2 to 6 inches long; very fleshy and stringless; when ripe are excellent shell beans.

Per 1b 25c; 10 lb \$2.00

BEANS—In 5c Lithographed Packages.

Early Black Wax. Early Long Yellow 6 Weeks.
Early Golden Wax. Early Red Valentine.

TABLE BEETS.

How to Plant—The soil should be rich and deeply plowed, say 8 to 10 inches. Sow in rows from 14 to 20 inches apart and about 1 to 1 1/2 inches deep. About 6 pounds of seed to the acre for garden or stock feed and for sugar about 20 pounds of seed to the acre. As soon as the plants have the fifth or sixth leaf, thin to one plant each 8 inches. If under irrigation, water as soon as thinned. Cultivate often and do not water again until absolutely necessary, as the soil will dry from the surface down and the tap roots will follow the moisture and much better results will follow. Careful tests have proven that one cultivation a week will give the best results. Keep clean and remember that cultivation is the next thing necessary after the best seed, and the two are necessary for success.

Miles City, Montana, Feb. 27, 1905.

The State Nursery Co., Helena, Mont.

Gentlemen:—I write to express my most grateful appreciation of the cut flowers, which reached me safely from you on Saturday afternoon. They were much admired by my congregations in our church services yesterday morning and evening.

Yours very truly,

E. M. CALVIN.

Great Falls, Mont., Sept. 15, 1905.

State Nursery Co.

Gentlemen:—The Lilacs and Paeonias purchased of you last spring have proven satisfactory beyond expectations.

Your truly,

BERNERS B. KELLY.

**Extra Early Dark Red Beet—**

(Montana Strain)

For richness of color and exquisite flavor this new strain cannot be equaled.

Early, rich and sweet.
Per oz 10c;
1/4 lb 25c
lb80c

S. N. Co.'s Peerless Crosby Turnip—

Early,

Extra Early Dark Red Beet. solid, sweet; grand shape; color red.

1/4 lb20c; lb 60c

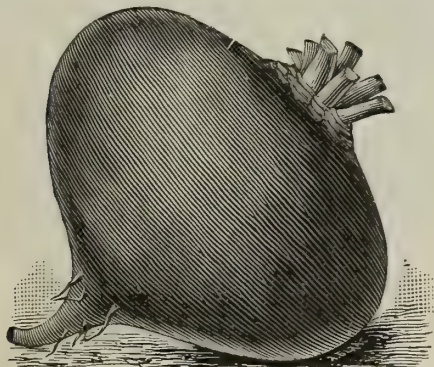

S. N. Co.'s Peerless Blood Turnip—Most uniform of all beets; small top, dark red foliage, roots handsome, smooth and of good size. 1/4 lb 20c, lb 60c.

S. N. Co.'s Peerless Eclipse—Best variety for main crop; good keeper, clean blood red beet; sweet and tender.

Large pkt.....10c; 1/4 lb 20c; lb 60c

S. N. Co.'s Edmund Early Blood Turnip—Roots of good form, turnip shaped and flesh deep red, as name indicates. This is a standard variety, and one of the best.

1/4 lb20c; lb 65c

**Dark Red Egyptian Beet.**

S. N. Co.'s Dark Red Egyptian Beet—Has more good qualities than any other beet; extra early, sweet, small leaved; color dark crimson. Large pkt..10c, 1/4 lb 15c, lb 50c

Half-Long Blood—This is rapidly becoming a very popular sort and will probably produce more bushels from a given area than any other sort, as it does not occupy as much space in the row as the turnip-shaped varieties. Per oz.....10; 1/4 lb 20c; lb 60c

BEETS—In 5c Lithographed Packages.

Extra Early Egyptian.

Early Eclipse Blood Turnip.

Edmund Early Blood.

Long Red Mangold.

Wanzleben Sugar.

SUGAR BEETS.

S. N. Co.'s Wanzleben Sugar—Best of all sugar beets; has rather long slender root, very rich in sugar; will yield under average conditions 16 tons to the acre. All stock men know that sugar makes fat, and will realize its value as a stock food.

Per lb.....25c; 10 lb \$2.25

S. N. Co.'s Imperial Sugar—An improved lane beet, very large and a heavy yielder; will grow 15 to 20 tons to the acre, an invaluable variety for the stockfeeder, being rich in sugar. Per lb.....25c, 10 lb \$2.25

Vilmorin's Improved—This French variety is very popular with sugar beet growers, contains a larger percentage of sugar and requires less water than others.

Per lb.....30c; 10 lb \$2.50

Write for Prices on Mangels and Sugar Beets in larger quantities.

At the last State Fair Sugar Beet test, our sample tested 91.7 in purity.

MANGOLD WURZELS.**S. N. Co.'s Mammoth Long Red—**

(See Cut.) Immense yielder; very large, skin dark red; splendid for winter feeding.

Per lb.....25c; 10 lb \$2.25

S. N. Co.'s Golden Tankard—

The dairyman's mangel; fine grained yellow flesh, rich in milk producing qualities.

Per lb.....25c; 10 lb \$2.25

S. N. Co.'s Yellow Globe—

An especially good variety to grow if one has a limited supply of water; a great favorite for dairymen, making a wonderful increase in milk; easy to pull and harvest; tops are small.

Per lb.....25c; 10 lb \$2.25

**Long Red Wurzel.**

BROCCOLI.

S. N. Co.'s White Cape—Creamy white color; heads medium size, close and compact.

Pkt.....15c; oz. 50c; ¼ lb \$1.50

S. N. Co.'s Purple Cape—Same as above excepting color.

Pkt.....15c; oz. 50c; ¼ lb \$1.50

Broccoli are grown by many in preference to Cauliflower; they are a little later but easier to grow.

BRUSSELS SPROUTS.

S. N. Co.'s Peerless—An improved variety, growing about 18 inches high; produces sprouts in abundance. Cut out head of plant when sprouts have formed.

Pkt.....5c; oz. 25c; ¼ lb 75c

CABBAGE.

One ounce will produce 1,500 plants; half pound will produce plants for one acre.

The soil should be deep and rich. For early crop, grow plants in hot beds, transplanting to cold frames and then as early as possible after danger of freezing to the open ground. Cultivate often and keep well watered if under irrigation. For late crops sow seed in open ground and transplant, or some succeed finely by sowing seeds in hills where wanted and thinning to one. This avoids the necessity of waiting for a damp time to transplant.

Extra Early Express Cabbage.

S. N. Co.'s Extra Early Express—This is the earliest heading cabbage known, coming in about ten days ahead of all others. Medium size, excellent flavor.

Per pkt.....10c; oz. 40c

S. N. Co.'s Peerless Wakefield—The best of all Wakefields; superior strain; earliest, large and solid.

Per oz.....25c; ¼ lb 80c; lb \$2.50

S. N. Co.'s Peerless Wakefield Cabbage.

S. N. Co.'s Early Summer—For those who like a round, flat, early cabbage, this variety will be sure to please; will stand longer without cracking than most early sorts.

Per oz.....20c; ¼ lb 75c; lb \$2.75

S. N. Co.'s Early Winnigstadt—Will grow a hard head under circumstances where most sorts would fail; heads regular, conical, keeps well both summer and winter. Our best gardeners say if they could only grow one sort the Winnigstadt would be their choice.

Per oz.....20c; ¼ lb 60c; lb \$2.00

Succession Drumhead Cabbage.

S. N. Co.'s Succession Drumhead—Large uniform heads of fine grained, light green color; an excellent cabbage for main crop; this strain is so finely bred and true to type that every head seems alike, a perfect cabbage in every respect.

Per oz.....30c; ¼ lb 85c; lb \$3.00

S. N. Co.'s Surehead—For main crop is unexcelled; large, flattish round heads, fine and solid; always heads.

Per oz.....25c; $\frac{1}{4}$ lb 80c; lb \$2.75

S. N. Co.'s Peerless Holland Cabbage.

S. N. Co.'s Peerless Holland—Most remarkable cabbage yet produced. Medium size heads, very heavy, fine grain, small stem, and the best keeper known; always commands the best price; those who know this cabbage will have no other for a long keeper. Sow early for best results.

Per oz.....30c; $\frac{1}{4}$ lb 80c; lb \$3.00

Large Flat Dutch Cabbage.

S. N. Co.'s Large Flat Dutch—Selected and improved, superior to all other flat Dutch in size, sweetness and keeping qualities.

Per oz.....25c; $\frac{1}{4}$ lb 75c; lb \$2.50

Eureka Cabbage—A grand Cabbage for the family or gardener. A second early uniform Cabbage, every head alike. "The finest Cabbage in existence," says a well known grower. Perfect in every respect, large size, handsome color, finest flavor.

Per pkt.....15c; oz. 60c

S. N. Co.'s Houser Cabbage—A distinct variety of Winter Cabbage. For a solid, shapely, heavy, sweet cabbage, it can't be beaten, and by reason of its compact growth and freedom from loose leaves fully 500 to 600 more plants can be grown to the acre, making it a profitable variety.

Per pkt.....10c; oz. 50c; $\frac{1}{4}$ lb \$1.50

S. N. Co.'s Peerless Drumhead Savoy—When better known will be more generally grown; delicious after slightly frosted.

Pkt.....10c; oz. 30c; $\frac{1}{4}$ lb 85c; lb \$3.00

S. N. Co.'s Red Dutch—Used principally for pickling; solid heads, good color.

Per oz.....25c; $\frac{1}{4}$ lb 75c; lb \$2.25

CABBAGE—In 5c Lithographed Packages.

Early Jersey Wakefield—Surehead (Main crop). Early Summer, Early Winnigstadt, Holland (winter).

CARROTS.

(One oz. to 100 feet drill; 4 lbs to an acre.)

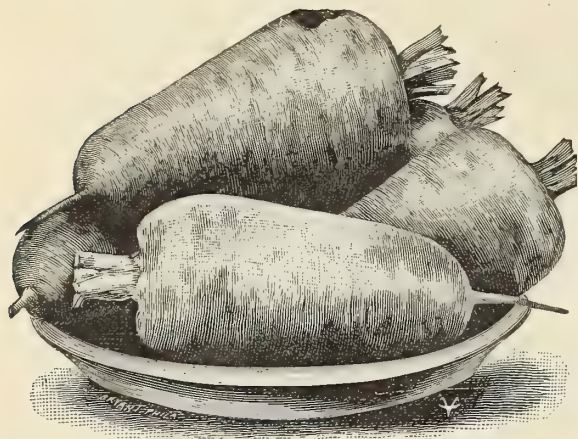

S. N. Co.'s Peerless Shorthorn Carrot.

S. N. Co.'s Peerless Shorthorn—Earliest and best table variety, short top, sweet and tender.

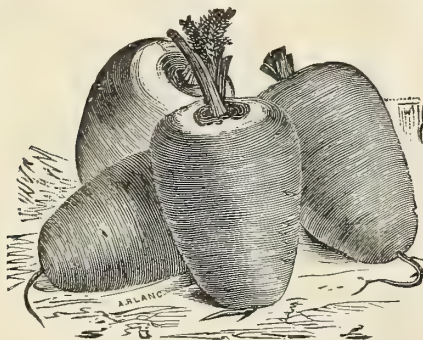

Per oz.....10c; $\frac{1}{4}$ lb 25c; lb 85c

S. N. Co.'s Improved Half Long—An old favorite of superior quality; deep orange color, smooth and handsome.
Per oz.....10c; ¼ lb 30c; lb 85c

S. N. Co.'s Guerande Carrot.

S. N. Co.'s Guerande—The finest carrot for table use, being free from hard core; very like the Oxheart, but more highly colored, both skin and flesh; roots attain a diameter of 4 inches at the top, tapering to 2 inches in a stump root.
Per oz.....10c; ¼ lb 30c; lb 90c

S. N. Co.'s Oxheart Carrot.

S. N. Co.'s Peerless Oxheart—Medium early, bright orange color, fine grained and sweet; one of the best table varieties. Can be pulled by hand; well suited to heavy soils, but will thrive equally well in other situations.

1 oz. 10c, ¼ lb 30c, lb 90c

S. N. Co.'s Improved Long Orange—Excellent variety for garden or field culture. Good quality for dairy cows; attains a large size.

1 oz. 10c, ¼ lb 25c, lb 70c

S. N. Co.'s Peerless Monster White—Stock variety. Crisp, solid, sweet; abundant yield; does not easily break.....

¼ lb 20c, lb 60c

S. N. Co.'s White Belgian—Grown extensively for stock feeding. Very heavy cropper.
¼ lb 20c, lb 50c

CARROTS—In 5c Lithographed Packages.

Danvers' Half Long, Improved Long Orange, Early Scarlet Horn and Oxheart.

CHERVIL.

Curled—An aromatic herb. The young leaves are used in soups and salads.

Pkt.....5c, oz. 15c, ¼ lb 35c

CRESS.

Cress or Pepper Grass—This small salad is much used with lettuce, to the flavor of which its warm pungent taste makes an agreeable addition.

Pkt.....5c, oz. 10c, ¼ lb 20c

Cress—(Water). Hardy perennial aquatic plant; sow seed along water's edge, preferably in running springs.

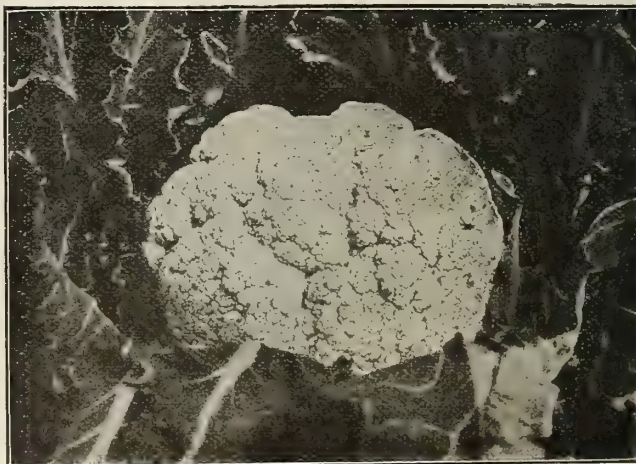

Pkt.....10c, oz. 40c

CHIVES.

Members of the onion tribe, quite hardy everywhere. The leaves are slender and appear very early in the spring, and may be shorn several times during the season. They are propagated by divisions of the root. The chives make the very best border for beds in the vegetable garden, and are not only ornamental, bearing pink flowers and a mass of green leaves, but equal the onion for flavoring soups and salads. Roots 25c per bunch postpaid.

CAULIFLOWER.

One Ounce for 5,000.

S. N. Co.'s Peerless Snowball Cauliflower.

S. N. Co.'s Peerless Snowball—Beyond question the best cauliflower known for either early or late, family or market garden culture. It heads where others fail. Its close and compact growing habit permit one-third more to be planted on the same quantity of ground than can be done with other varieties.

Pkt. 25c, $\frac{1}{4}$ oz. \$1.25, oz. \$4.00, $\frac{1}{4}$ lb \$14.00

S. N. Co.'s Selected Danish Cauliflower.

S. N. Co.'s Selected Danish—Next in merit to our Peerless Snowball this variety is considered the best. Early, compact, sure heading, pure white.

Pkt. 15c, $\frac{1}{4}$ oz. \$1.00, oz. \$3.00, $\frac{1}{4}$ lb \$11.00

S. N. Co.'s Early Erfurt—An extra early variety; scarcely a plant fails to produce a good head.

Pkt. 15c, $\frac{1}{4}$ oz. 60c, 1 oz. \$2.00, $\frac{1}{4}$ lb \$7.00

A FINE BLOOM.

On Chief Pontet's desk at police headquarters is probably the largest and prettiest geranium bloom ever seen in Great Falls, perhaps in the state. Jailer Joe Thompson cut the stalk from one of the numerous plants growing in his house at 1010 Sixth avenue south.

The bloom is indeed a beauty. It is of a salmon pink shade, and callers at the station pronounce it the finest specimen of the kind they ever saw. Fully 35 blossoms form the cluster, which is seven inches in diameter. The large blow is almost perfect in shape.

Great Falls, Montana, June 12, 1905.

State Nursery Co.,

Gentlemen:—Please accept my thanks for the very excellent manner in which you filled my orders, both plants and bulbs are doing fine.

Very truly yours,

JOE THOMPSON,

1010 Sixth Avenue, South.

CELERY.

(One ounce for 10,000 plants.)

Celery Culture—Celery can be successfully grown with but little labor, in a good garden soil, by using plenty of well rotted manure. This should be put into the trenches, working it well into the soil, at least two weeks before the plants are transplanted into them. It delights, however, in low, moist, rich bottom land, or well drained muck soil.

S. N. Co.'s White Plume.

S. N. Co.'s White Plume—Handsome, crisp, self blanching, easily cultivated; the most popular with Montana growers; keeps well up to January.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb 80c, lb \$2.75

S. N. Co.'s Giant Pascal—Green leaved, very solid and crisp and of a fine nutty flavor. With rich soil and good culture this will prove wholly satisfactory for late use.

Pkt. 10c, oz. 25c, $\frac{1}{4}$ lb 75c, lb \$2.50

S. N. Co.'s Perfection—Finest and largest winter variety; the best keeper known; solid, crisp, tender and of an exceedingly fine flavor; more largely grown here than all other late varieties put together.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb 80c,
lb\$2.75

S. N. Co.'s Self Blanching.

S. N. Co.'s Self Blanching—Solid, resembling White Plume except in color, which is a rich golden yellow; the finest and purest stock of this noted celery obtainable.

Pkt. 10c, oz. 30c, $\frac{1}{4}$ lb 80c,
lb\$3.00

S. N. Co.'s Perfection

S. N. Co.'s Boston Market—The best variety for light soils, producing many small hearts clustered round the center large one, which are very white and remarkably tender and crisp.

Pkt.....10c, oz. 30c, $\frac{1}{4}$ lb 80c

Celeriac—Turnip rooted Celery. Excellent for soups, will keep all winter; roots large, smooth, good flavor.

Pkt.....10c, oz. 25c, $\frac{1}{4}$ lb 70c, lb \$2.50

CELERY—In 5c Lithographed Packages.

Golden Self Blanching.

White Plume

Montana Perfection.

Celeriac.

CORN—(Sweet .

(One lb for 100 hills; 15lb for 1 acre.)

Corn thrives best in warm, rich soil. The smaller varieties may be planted in drills two and a half feet apart and ten inches apart in the drills. The larger kinds may be planted in hills three and a half feet apart each way allowing three or four stalks to remain in a hill. Success can be secured by thorough cultivation.

S. N. Co.'s Peep O'Day Sweet Corn.

S. N. Co.'s Peep O'Day Sweet Corn—Ten days earlier than any other Sweet Corn. Peep O'Day corn, in addition to its sensational earliness, is entirely distinct in appearance and habit of growth. The stalk grows from 3 to 4 feet in height. The ears average about 5 inches in length and are of perfect form, well filled out to the tip. When cooked, the corn is exceedingly sweet and tender. Per pkt. 10 c, per lb 30c.

Crosby's Early—Early and a great favorite; rather small ears, but productive and of excellent quality. 1 lb 20c, 10 lb \$1.75.

Black Mexican or Squaw—An old favorite; very attractive, delicious corn; sweet and prolific. 1 lb 10c, 10 lb \$1.60.

S. N. Co.'s Favorite—Early, large, ears 12-rowed. Market gardeners prefer it to any other for main crop. 1 lb 20, 10 lb \$1.75.

Early Minnesota Sweet Corn—A very fine second early strain with large ears filled with 12 or more rows of handsome white grains of fine quality. 1 lb 25c, 10 lb \$2.00.

S. N. Co.'s Mammoth Cory.

three and four ears each.
Large pkt. 10c, 1 lb 20c, 10 lb \$1.75

S. N. Co.'s Evergreen—Medium early; remains a long time in edible condition.
1 lb 20c, 10 lb \$1.75

CORN—In 5c Lithographed Packages.

Early Red Cob Cory. Stowell's Evergreen.
Early White Cob Cory. Early Minnesota.
Country Gentleman.

We will offer \$50.00 in Cash Premiums for the best collection of Vegetables grown from State Nursery Co.'s Seeds at the Montana State Fair.

S. N. Co.'s Peerless Cory—Mammoth White. Earliest of all Cory Corn; one of the most successful varieties of corn for Montana, and largely grown for the market; large ears, tender and delicious. Large pkt. 10c, 1 lb 15c, 10 lb \$1.25.

S. N. Co.'s Peerless Montana Market—Early, large cob, very sweet, most desirable variety. Large pkt. 10c, 1 lb 20c, 10 lb \$1.75.

S. N. Co.'s Country Gentleman—The best Sweet Corn for private use. Has a small white cob densely covered with irregular rows of deep, slender white grains of delicious flavor. Ears average 8 to 9 inches in length. The stalks grow about 6 feet high and average

CUCUMBERS.

One ounce of seed will plant fifty hills; one pound an acre.

S. N. Co.'s Arlington—Earliest of the White Spined varieties. Excellent for table use.
Ounce.....15c, 1/4 lb 40c, 1 lb \$1.50

S. N. Co.'s White Spined Evergreen—Deep green color; early; one of the best shipping varieties.
Ounce.....15c, 1/4 lb 40c, 1 lb \$1.50

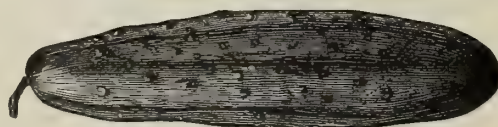

S. N. Co.'s Early Russian—

Bright green, crisp and tender flesh; excellent for table use or pickling.
Ounce 15c, 1/4 lb 40c, 1 lb \$1.50

S. N. Co.'s Early Frame—A n early cucumber of Superb Quality with a delicate flavor all its own.
Per oz. 15c, 1/4 lb 40c, 1 lb \$1.50

S. N. Co.'s Early Frame.

S. N. Co.'s Long Green—Not quite so early as the above named sorts, but admitted by all to be the best general crop Cucumber for this climate; good color, very prolific, crisp and tender. Oz. 15c, 1/4 lb 40c, 1 lb \$1.50

S. N. Co.'s Long Green Cucumber.

Rollinson's Telegraph—(For Forcing). Long green Cucumbers of excellent flavor; very tender and solid. We have grown this variety under glass as long as 25 inches.
Pkt of 10 seeds.....25c

CUCUMBERS—In 5c Lithographed Packages.

Long Green. Early White Spine.
Early Frame. Early Russian.

DILL.

Used extensively for Pickles.

Per pkt.....5c, per oz. 15c

ENDIVE.

S. N. Co.'s Green Curled—For fall and winter use; also largely used for garnishing; crisp and curly; easily blanched.

Pkt.....5c, oz. 20c, ¼ lb 60c, lb \$2.00

S. N. Co.'s White Curled—Leaves pale green; should be used when young.

Pkt.....5c, oz. 20c, ¼ lb 60c, lb \$2.00

EGG PLANT.

S. N. Co.'s Improved New York—This selection is vastly superior to the old type. The habit of the plant is low and branching, and is quite free from spines. The fruits are of the largest size and perfect form; eight to ten are produced on a plant. It is extremely early, of splendid quality and great productiveness. Pkt.....5c, oz. 40c, ¼ lb \$1.25

KOHL RABI.

Kohl Rabi—Turnip rooted; early white Vienna; small, white, very tender and delicate when young. Pkt. .5c, oz. 20c, ¼ lb 60c, lb \$2.00

KALE.

Dwarf Scotch Curled—The Kales make excellent greens for fall, and are improved when slightly frosted. Cultivate same as cabbage. Pkt.....10c; oz. 15c

Dwarf German Green—Beautifully curled; very hardy. Pkt.....5c, oz. 15c

Tall Scotch Curled—Always a favorite.

Pkt.....5c, oz. 15c

LEEK.

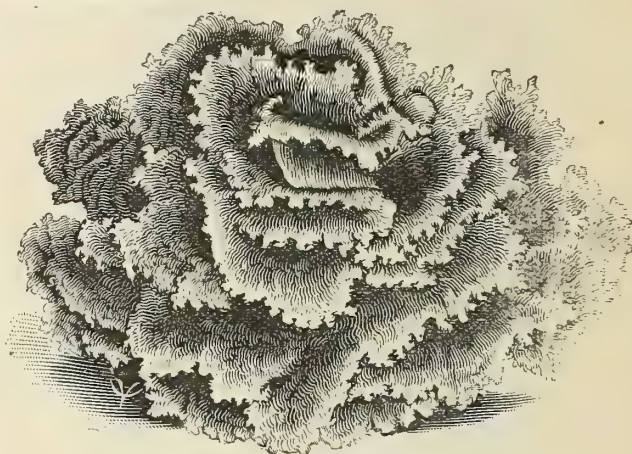

S. N. Co.'s London Flag—Strong growing variety, producing large, thick stems of sweet flavor when properly blanched. Leeks are hardy and flavor is improved by frost.

Pkt.....5c, oz. 20c, ¼ lb 60, lb \$2.00

LETTUCE.

(¼ oz. to 100 feet of drill.)

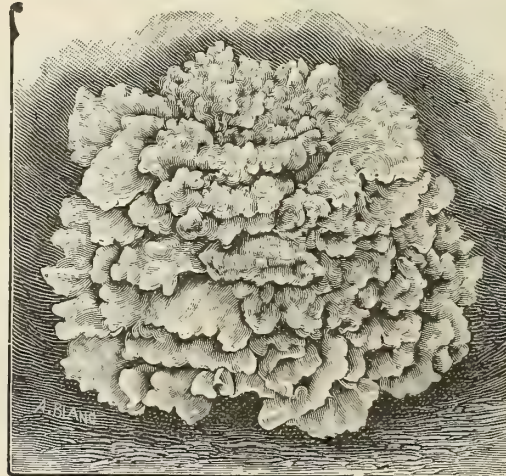

We pay great attention to our Lettuce Seed, knowing the value of securing those kinds only that have given the best results in our precarious climate. Our largely increased sales show that our customers are pleased with the varieties listed.

S. N. CO.'s Curled Silesia.

S. N. Co.'s Curled Silesia—Produces the earliest Lettuce from outdoor sowing; a very popular German variety; sweet and tender. Large pkt. . .10c, oz. 15c, ¼ lb 30c, lb \$1.00

S. N. Co.'s Curled Simpson—Forms a compact bunch of yellowish green leaves; rapid grower; desirable for forcing. Large pkt. .10c, oz. 15c, ¼ lb 35c, lb \$1.00

S. N. Co.'s Montana Market Lettuce.

S. N. Co.'s Montana Market—Black seed, large, curly, sweet, and crisp; a very desirable variety for either forcing or outdoor culture. Large pkt. .10c, oz. 15c, ¼ lb 40c, lb \$1.25

S. N. Co.'s Prize Head—White seed, large, loose heading; variety of exquisite flavor; leaves curly, tipped reddish brown.

Large pkt. . . 10c, oz. 15c, $\frac{1}{4}$ lb 35c, lb \$1.00

S. N. Co.'s Hanson Head—A large Summer heading Lettuce; very crisp and tender, and slow to run to seed; is tender at any stage of growth.

Per pkt.—10c, oz. 15c, $\frac{1}{4}$ lb 40c, 1 lb \$1.25

S. N. Co.'s Tennisball.

S. N. Co.'s Tennisball—Smooth-leaved heading variety for late Summer use or will stand forcing very well. Its solid compact habit and good flavor are much sought for.

Oz. 15c, $\frac{1}{4}$ lb 35c, 1 lb \$1.00

Denver Market, Peerless Passion, Big Boston—

These are excellent varieties of Head Lettuce; large size; quick growth; tender and attractive. Oz. 15c, $\frac{1}{4}$ lb 35c; 1 lb \$1.00

S. N. Co.'s New York Head.

S. N. Co.'s New York—White seed. Forms large heads; dark green color, sure header; outside leaves bright green, inside leaves blanched to a rich cream color.

Large pkt. . 10c, oz. 15c, $\frac{1}{4}$ lb 30c, lb \$1.00

S. N. Co.'s White Cos—Distinct variety of upright growth; leaves should be tied together near top, when they soon become crisp and delicious as celery stalks, and are eaten in the same manner.

Large pkt. 10c, oz. 20c, $\frac{1}{4}$ lb 50c

LETTUCE In 5c Lithographed Packages.

Early Curled Silesia.	Big Boston.
Early White Seeded Sampson.	Hanson Head.
Montana Market.	Prize Head.

MUSK MELON.

S. N. Co.'s Extra Early Hackensack—Very popular variety, one that matures early and of good quality. Oz. 10c, $\frac{1}{4}$ lb 25c, 1 lb 65c

S. N. Co.'s Early Nutmeg—For general early use this variety is unsurpassed, uniform in size, thick fleshed, delicious flavor.

Ounce 15c, $\frac{1}{4}$ lb 30c

S. N. Co.'s Paul Rose—In this variety, which has gained great popularity, are combined all the good qualities of the Netted Gem and Osage, from which it is a cross.

Ounce 10c, $\frac{1}{4}$ lb 25c, lb 75c

MUSK MELON—In 5c Lithographed P'kages.

Early Nutmeg.

Paul Rose.

Extra Early Hackensack.

MELON—(Water)

S. N. Co.'s Rocky Mountain—Very early, medium size, smooth skin with mottled and dark green stripes. Flesh light red, deliciously sweet.

Ounce 10c, $\frac{1}{4}$ lb 20c

Phinney's Early—A valuable variety for use in the north; vines vigorous and productive, fruiting quite early; rind thin; flesh sweet, very tender and crisp.

Ounce 10c, $\frac{1}{4}$ lb 20c

WATER MELON In 5c Lithographed P'kages.

Phinney's Early.

Early Peerless.

Green Citron for Preserves Rocky Mountain

MUSTARD.

S. N. Co.'s White—The green leaves are used as a salad when a few inches high. If sown in a warm place or in a hot bed, will be ready to cut in a few days; sow frequently for a succession of crops.

Ounce 10c, $\frac{1}{4}$ lb 20c

MUSHROOMS

Can be easily grown in an ordinary cellar or barn.

English Mushroom Spawn—Original English Milltrack, superior to all others. It comes in pressed bricks weighing about 20 ounces. These are broken up into pieces the size of a walnut and put into the bed eight inches apart each way. Price per brick 25c

If you are a User of Grass Seeds see Pages 55 and 56. Let us send you samples and prices; our qualities cannot be beaten.

GARLIC.

The Garlic is the most pungent of all the onion family. It is much used in the south of Europe. The root or bulb is composed of many small bulbs called "cloves," which are planted in the spring six to eight inches apart and in August the tops will die, when the bulbs are ready to gather. They do best in light, rich soil. Large bulbs, 1 lb 30c, 3 lb 80c, post paid. Write for prices on large lots.

ONION SETS.

White Onion Sets—Good, clean stock, well preserved and cured, mild flavor.

Pound.....25c, 10 lb \$2.00

Yellow Onion Sets—More generally used than either the white or red. Grown from fancy Danvers seed; will produce large bulbs.

Pound.....20c, 10 lb \$1.80

Red Onion Sets—Earlier than either white or yellow. In high altitudes, where frosts come early, this variety is sought for on account of its earliness.

Pound.....20c, 10 lb \$1.75

Write for bushel prices on Onion Sets. Order early as prices advance with the season.

We put these Sets up in 1 bushel crates of 32 lbs and will be pleased to quote them to you.

Yellow Potato Onion Sets—These produce the earliest dry, large, ripe onions.

Per lb.....25c, 10 lb \$2.25

The planting of Onion Sets is increasing rapidly year after year. They are used in order to obtain onions earlier than they can be had from seed. It follows therefore, that Northern grown Onion Sets will produce onions earlier than Southern grown Sets.

ONION SEED.

One ounce for 100 feet of drill; 5 or 6 pounds in drills for an acre.

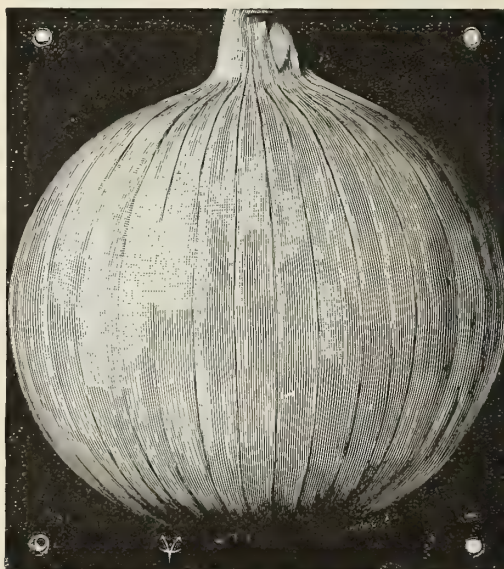

The onion thrives best in a rather deep, rich loamy soil, and, unlike most vegetables, succeeds well when cultivated on the same ground for successive years. Our seed is the purest and best that can be produced; write for prices on large quantities.

S. N. Co.'s Red Globe—Good size, deep red, fine grained, mild and tender; matures early.

Ounce pkt.....15c, 1/4 lb 40c, 1 lb \$1.25

S. N. Co.'s Wetherfield—Extra early, flat, good yielder, good keeper, and for early marketing has no equal. The Standard Red. Ounce.....15c, 1/4 lb 40c, 1 lb \$1.25

S. N. Co.'s Yellow Globe Onion.

S. N. Co.'s Yellow Globe—Perfect globe shape; heavy cropper, excellent keeper, one of the most popular Yellow Onions; mild flavor. Ounce.....15c, 1/4 lb 40c, 1 lb \$1.25

S. N. Co.'s Improved Yellow Danvers Flat—A fine productive Onion, more generally used than all other Onions put together in the West. Small necks, comparatively mild flavor, skin copper yellow, a splendid keeper. Ounce.....15c, 1/4 lb 35c, 1 lb \$1.00

S. N. Co.'s Silver King—White fleshed, mild in flavor, matures earlier than any other large white Onion, and keeps well.

Ounce.....20c, 1/4 lb 65c, 1 lb \$2.00

S. N. Co.'s White Barletta—When matured, the tops die down, leaving beautiful and perfect little bulbs. The color is purewhite, flavor mild and delicate, perfectly adapted for pickling and table use.

Ounce.....15c, 1/4 lb 50c, 1 lb \$1.75

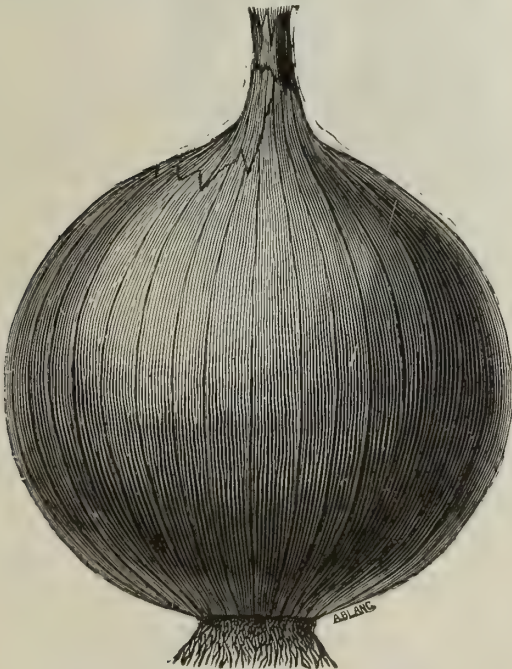

S. N. Co.'s White Pickling.

S. N. Co.'s White Pickling—For early bunching pickling and sets. Small, hard, round; keep well; does not turn green when exposed to the sun.

Ounce.....20c, $\frac{1}{4}$ lb 65c, 1 lb \$2.25

White Globe—Yield abundantly, producing handsome and uniform globe-shaped bulbs. The flesh is firm, fine grained and of fine flavor. Sometimes called Southport White Globe. Ounce.....20c, $\frac{1}{4}$ lb 60c, lb \$2.00

S. N. Co.'s Australian Brown.

S. N. Co.'s Australian Brown—This new onion is of neat, round shape, medium size, with skin of a deep amber brown; distinct from all other onions; extremely hard and firm; of fine flavor, and will keep almost indefinitely. Ounce.....15c, $\frac{1}{4}$ lb 40c, lb \$1.30

S. N. Co.'s Peerless Portugal—Beautiful silvery white, early, and a good keeper; slightly flattened but symmetrical.

S. N. Co.'s Peerless Portugal Onion. Oz. 25c, $\frac{1}{4}$ lb 60c, lb \$2.00

ONIONS—In 5c Lithographed Packages.

Large Red Whethersfield. Yellow Danvers Flat. Extra Early Red. Yellow Globe.

We are very proud of the records made by our onion seed; last year onions grown from our seed carried off many prizes, including the 1st prize against all competitors at the State Fair.

PARSNIP.

S. N. Co.'s Hollow Crown—Finest variety of Parsnip known; the roots run of uniform size and are smooth. There is a growing demand for Parsnips. They make an excellent change from ordinary winter vegetables. Pkt. 5c, oz. 10c, $\frac{1}{4}$ lb 20c, lb 60c.

S. N. Co.'s Early Round—For those who like an early Parsnip this variety will be found very useful; not so large as the longer varieties. Oz. 10c, $\frac{1}{4}$ lb 20c, lb 65c

S. N. Co.'s Hollow Crown Parsnip.

PARSLEY.

S. N. Co.'s Peerless Moss Curled—There is no more attractive variety than this when well grown; hardy and slow to run to seed; every gardener's favorite.

Pkt.....5c, oz. 15c, $\frac{1}{4}$ lb 50c

S. N. Co.'s "Ideal"—A novelty. In shape of leaf, color and taste this new variety is the ideal of perfection. It stands heat, drought and cold better and will yield much better than any other of the numerous varieties of Parsley we have ever tried.

Ounce.....15c, $\frac{1}{4}$ lb 40c, lb \$1.50

PEPPER.

Large Bell or Bull Nose—Early, large and mild, favorite sort for this locality.

Pkt.....5c, oz. 25c, $\frac{1}{4}$ lb 75c

Procopp's Giant—Fine flavor, very large, bright color.

Pkt.....5c, oz. 25c, $\frac{1}{4}$ lb 75c

Pepper plants should be started in hot bed early and set out after danger from frost is past.

PUMPKIN.

(2 lbs to the acre.)

Connecticut Field—Standard variety for field culture and stock feeding, large, hardy and productive. Ounce...10c, $\frac{1}{4}$ lb 15c, lb 40c

Early Sugar—Fine grained, sweet and prolific; small in size, but the best Pumpkin known.

Pkt.....5c, oz. 10c, $\frac{1}{4}$ lb 25c, lb 75c

Quaker Pie—An excellent table variety and good keeper; flesh thick, fine grained and tender. Ounce.....10c, $\frac{1}{4}$ lb 25c, lb 75c

S. N. Co.'s Mammoth—Grows to an immense size, often weighing over 100 pounds.

Pkt.....5c, oz. 10c, $\frac{1}{4}$ lb 20c, lb 60c

S. N. Co.'s Tennessee Sweet Potato—One of the very best for cooking purposes. Nearly pear shaped, with neck slightly crooked; skin and flesh a creamy white, slightly striped with green, fine grained and of excellent flavor, hardy and very productive. Ounce.....10c, $\frac{1}{4}$ lb 25c, lb 75c

PEAS—(Garden).

(1 lb to 100 feet of drill.)

Peas come earliest to maturity in light, rich soil. For general crop, a deep loam or a soil strongly inclined to clay is best. For early crops decomposed leaves or leaf mould should be used; or if, the soil is very poor, strong manure. For the dwarf growing kinds the soil can hardly be too rich. Our Peas are all hand picked and true to name.

S. N. Co.'s American Wonder.

S. N. Co.'s American Wonder—In the dwarf compact-growing extra earliest the American

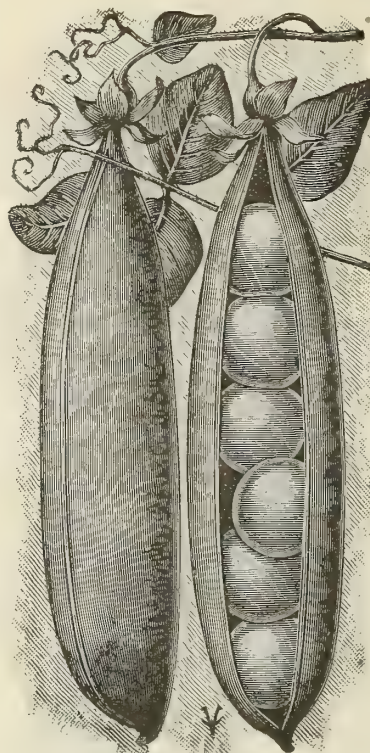

Wonder leads all others, can be grown in rows eighteen inches to two feet apart. They are quite prolific; the crops can be gathered in two or three pickings, and the soil cleared for succeeding crops.

Pound.....25c, 10 lb \$2.00

S. N. Co.'s First and Best Smooth Seeded Pea—

Height 18 inches. For those desiring an extra early Pea, we can recommend this as the best. Ready for use in about 50 days.

Per lb.....20c, 10 lb \$1.40

Montana Market

S. N. Co.'s Montana Market—

Height 14 in. Early, large well filled pods, very prolific and sweet, vigorous grower and sure to please. Ready in 55 days. Pound 25c, 10 lb \$2.00.

McLean's Little Gem—A standard family pea, quality excellent, early, dwarf, height 15 inches, seeds green, wrinkled. Per pound 25c, 10 lb \$2.00.

S. N. Co.'s Nott's Excelsior—Is quite dwarf and combines the good qualities of both Little Gem and American Wonder. Height 14 inches. It is a heavy yielder and the quality O. K.

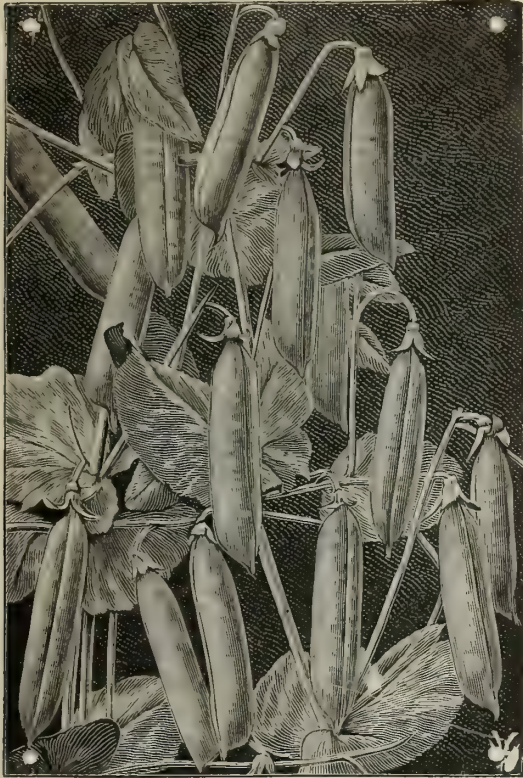

Cascade County Fair Association, Great Falls,

Secretary's Office, Oct. 20, 1905.

State Nursery Co., Helena, Mont.

Gentlemen:—This is to certify that Jas. W. Austin, of Hardy, won first prize at our County Fair this year for the best exhibit of vegetables grown from your seeds as per your offer of \$10.00. Thanking you for the same, I am,

Very truly yours,
CAL. HUBBARD, Secy.

Carter's Daisy.

Carter's Daisy—(Early Dwarf). Large Podded Pea. Needs no brush. Of English origin and introduction. "It's a Daisy." The striking features of the Daisy Pea are its large pods, and the way in which they are heaped up in ridges on the short strong vines, which are from 16 to 18 inches high. The pods are nearly double the size of American Wonder or Gem, and are always well filled with large peas of most excellent quality.

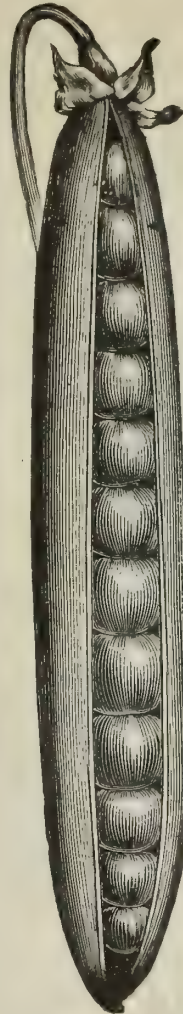

Per lb.....30c, 10 lb \$2.40

S. N. Co.'s Pioneer Everbearing—Height 18 in. Large wrinkled pea, tender and of superior flavor. The ideal family pea.

Per pound.....25c, 10 lb \$2.00

S. N. Co.'s Yorkshire Hero—A rich, marrow-like Pea, which remains in condition for use a long time, vines hardy, growing about two feet high, pods broad, Peas large, medium early. Pound.....20c, 10 lb \$1.60

Champion of England—Height 4 to 5 feet: very productive and admitted to be the richest and best flavored pea grown. Select stock. Per pound.....25c, 10 lb \$1.75

Teddy
Roosevelt.

Teddy Roosevelt—The largest "podder," surest "cropper," and heaviest "yielder" of all the main crop sorts. Nothing in the long list of peas excels the "Teddy" in richness, sweetness and flavor, and it ought not to take a pea planter long to figure out that a bushel of pods that will give as many peas as Two Bushels of other varieties is the **KIND TO GROW**. Height 4 feet.

Per lb....40c, 10 lb \$3.25

S. N. Co.'s Telephone—Selected stock. This fine, pea has proved a valuable acquisition; vines vigorous, growing about four feet high and producing an abundance of very large pods filled with immense peas, which are tender, sweet and of excellent flavor. It has sterling merit which gardeners appreciate.

Pound....25c, 10 lb \$2.00

PEAS In 5c Lithographed Packages.

First and Best.

American Wonder.

Champion of England.

Stratagem. Premium Gem.

RADISHES.

(1 ounce for 100 feet of drill.)

Culture—The soil for Radishes should be very rich, well broken by digging, as their tender and mild qualities depend much upon their rapid growth. For very early use, sow in gentle hot beds in February, and in the open air as soon as the ground can be worked, at intervals of ten to twelve days in succession as long as they may be wanted.

S. N. Co.'s Early Leafless—(Forcing). Tops are very short, from which it derives its name Leafless, making this variety valuable for cultivation under glass; 21-day Radish of globular form, delicate color, firm, crisp and sweet. Oz....15c, 1/4 lb 40c, 1 lb \$1.00

S. N. Co.'s Montana Market—Early scarlet turnip rooted variety, leads all others for first outdoor crop. Sow at intervals of 10 days for a succession of crops.

Oz.....10c, 1/4 lb 25c, lb 75c

S. N. Co.'s Early White Turnip Radish—Is a companion to Montana Market, making a very pretty contrast mixed with the scarlet.
Oz.....10c, ¼ lb 25c, lb 75c

S. N. Co.'s Peerless Family Radish.

S. N. Co.'s Peerless Family—White tipped scarlet. Very attractive, sweet and solid.

Oz.....10c, ¼ lb 20c, lb 60c

S. N. Co.'s Early Scarlet Turnip—A small, round, red, turnip-shaped radish, with a small top and of very quick growth. A very early variety, deserving of very general cultivation on account of its crisp and tender qualities. Oz.....10c, ¼ lb 20c, lb 60c

S. N. Co.'s Olive Shaped Deep Scarlet.

S. N. Co.'s Olive Shaped Deep Scarlet, or Paris Beauty—Very crisp, tender and early.

Oz.....10c, ¼ lb 25c, lb 75c

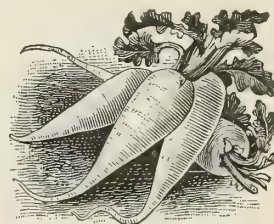

S. N. Co.'s French Breakfast.

S. N. Co.'s French Breakfast—Medium size, olive shaped Radish, small top, scarlet except at the tip, which is white; a splendid table variety, good for either forcing or outdoor culture. Ready for use in 20 days.

Oz.....10c, ¼ lb 20c, lb 70c

S. N. Co.'s Long Scarlet Short Top Improved—This bright scarlet, short topped sort is about five inches long, growing half out of the ground; is uniformly straight and smooth, crisp and brittle; an excellent variety for private gardens or market.

Oz.....10c, ¼ lb 20c, lb 60c

S. N. Co.'s Strasburg—

In our opinion there is no better Radish grown; the roots are white and grow to a large size, four to five inches thick; for

S. N. Co.'s Strasburg. sweetness, tenderness and flavor it is unequalled by any other Radish. Oz.....10c, ¼ lb 25c, lb 70c

S. N. Co.'s Icicle—The roots of this Radish grow about four inches long, are of transparent whiteness with short leaves, and make their growth very quickly. It is of excellent flavor and equally desirable for home use and market gardeners.

Oz.....10c, ¼ lb 25c, lb 75c

White Vienna or Lady Finger—A delicate, fine grained Radish and very desirable summer sort, white, smooth, tapering.

Oz.....10c, ¼ lb 25c, lb 75c

- S. N. Co.'s China Rose**—(Winter). One of the best fall and winter varieties, firm, white flesh. Oz.10c, 1/4 lb 25c, lb 75c
- S. N. Co.'s Black Spanish**—(Winter). The latest and hardiest of all the winter Radishes, roots black, long, large and good keeper; pull before severe frost and store in damp sand in root house. Oz. 10c, 1/4 lb 20c, lb 60c

RADISHES—In 5c Lithographed Packages.

- Early Scarlet Turnip. French Breakfast.
Early Scarlet Turnip, White Tip.
Long White Strasburg. Long Scarlet Short Top
White Turnip. Long Black Spanish

SALSIFY—Or Vegetable Oyster

- S. N. Co.'s Sandwich Island**—Largest variety, superior quality; appreciated by families as a winter vegetable. Pkt. 5c, oz. 20c, 1/4 lb 60c

RHUBARB.

- S. N. Co.'s Monarch**—Largest and most productive variety known. Will grow 15 to 20 inches long and fully 1 1/2 inches broad. Sow Rhubarb seed in drills one inch deep and thin out to six inches apart, transplant in the fall to deep soil well manured, setting the plants four to six feet apart each way. Pkt.10c, oz. 25c
- S. N. Co.'s Victoria**—Very large, highly colored and of good flavor. Pkt.10c, oz. 25c

SPINACH.

(1 oz. to 100 feet drill, 8 lbs to an acre.)

S. N. Co.'s Imp. Thick Leaved Spinach.

- S. N. Co.'s Improved Thick Leaved**—This variety grows very quickly, forming a cluster of slightly wrinkled leaves of fine color and quality, especially recommended for market gardeners. Sow in rich ground—the richer the better. If for early spring use, sow in the fall and protect the young plants with a covering of light manure or straw. Pkt.5c, oz. 10c; 1/4 15c, lb 35c
- S. N. Co.'s Long Standing**—The best variety for family use, as the plants remain in good condition longer without running to seed than the round leaved sorts. Thick, well flavored leaves, prickly seed. Pkt.5c, oz. 10c; 1/4 15c, lb 35c

SQUASE.

(1 oz. to 10 hills; 2 lbs to the acre.)

There are two distinct types. The Summer is cultivated for the tender young fruits which are used in the green or growing state during the summer months. The Winter Squashes produce large, hard-shelled fruits, which are gathered in the fall before there is danger of their being injured by frost, and stored in a warm, dry place for winter use. A few of the varieties, notably Fordhook, may be used in either state.

- S. N. Co.'s Large White Bush**—(Scallop). The fruit is a beautiful waxy white of superior quality; the best early Squash. Oz.10c, 1/4 lb 30c, lb 85c
- S. N. Co.'s Summer Crookneck**—Bright yellow, grows rapidly to large size; profitable sort for market. Oz.10c, 1/4 lb 30c, lb 75c
- S. N. Co.'s Fordhook**—Flesh dry and sweet, of excellent quality; matures early and has the advantage of being usable at any stage of its growth. Oz.10c, 1/4 lb 30c, lb 70c
- S. N. Co.'s Boston Marrow**—A fall and early winter variety, very popular; oval, skin thin, flesh salmon yellow; fine grained; when ripe bright orange color; matures in this locality the end of August. Oz.10c, 1/4 lb 25c, lb 75c

Hubbard—Superior Strain.

Hubbard—(S. N. Co.'s Superior Strain). This old and popular favorite is still one of the very best winter squashes grown; and whether boiled, steamed or baked it is always richly flavored, sweet and dry. The vines are strong, luxuriant growers and very productive, yielding large heavy squashes of dark bluish green color, weighing often 10 to 25 pounds each. Properly stored, it may be kept from September to May. Oz.10c, 1/4 lb 30c, lb \$1.00

S. N. Co.'s Warted Hubbard.

S. N. Co.'s Warted Hubbard—Darker green than the old Hubbard; matures earlier, hard as wood, with warty knots all over it; thick fleshed and dry; best keeper of all squashes. Oz.....10c, ¼ lb 35c, lb \$1.20

Vegetable Marrow—A favorite English sort. The fruit is very variable in size, from nine to eighteen inches in length, and from four to six inches in diameter. Skin a greenish yellow, flesh white, soft and of rich flavor. This is entirely distinct from all other varieties of Squash. Plant eight feet apart. Pkt.....10c, oz. 20c

SQUASH—In 5c Lithographed Packages.

Early White Bush.	Improved Hubbard.
Summer Crookneck.	Boston Marrow.

SUNFLOWER.

S. N. Co.'s Mammoth Russian—Grown largely for chicken feed; also for parrots, etc. Pkt.....5c, lb 20c, 10lb \$1.50
Write for Price in larger quantity.

HERBS.

Anise; Carraway; Catnip; Dill; Summer Savory; Horehound; Majoram; Sage (broad leaf); Thyme (English); Anise; Catnip; Coriander Lavender; Chervil, per pkt.....5c

Cascade County Fair Association, Great Falls,
Secretary's Office, Oct. 20, 1905.
State Nursery Co., Helena, Mont.
Gentlemen:—This is to certify that Jas. W. Austin, of Hardy, won first prize at our County Fair this year for the best exhibit of vegetables grown from your seeds as per your offer of \$10.00. Thanking you for the same, I am,

Very truly yours,
CAL. HUBBARD, Secy.

TURNIPS.

(1 oz. to 150 ft. drill; 2 lbs. to the acre.)

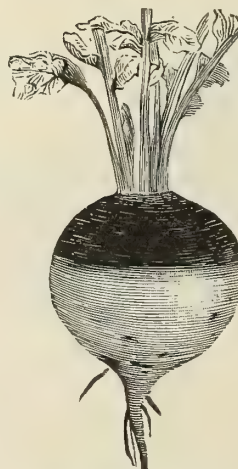

S. N. Co.'s Milan.

S. N. Co.'s White Milan—(Extra Early). Very small top, upright and compact; the clear white roots are very smooth, symmetrical and beautiful; there is no better Turnip for early bunching; fine grained, tender and sweet. Oz.....15c, ¼ lb 35c, lb \$1.00

S. N. Co.'s Purple Top Milan—(Extra Early). Very similar to the White Milan except that the roots are a little more flat, and the top of root is purple red. Oz.....10c, ¼ lb 30c, lb 90c

S. N. Co.'s Montana Snowball—Sweet, early and solid; a favorite for early market bunching. Oz.....10c, ¼ lb 25c, lb 70c

S. N. Co.'s White Egg—An old favorite, egg shaped, perfectly smooth, rather small top; the flesh is sweet, firm and mild. ¼ lb.....25c, lb 60c

S. N. Co.'s Purple Top White Globe.

S. N. Co.'s Purple Top White Globe—Round, large; an excellent keeper.

Oz. 10c, ¼ lb 20c, lb 60c

S. N. Co.'s Purple Top Strap Leaf—Very popular; round and flat good table variety, and a keeper.

Oz. 10c, ¼ lb 20c, lb 60c

S. N. Co.'s Yellow Stone—Medium size, round and smooth; pale yellow color; flesh solid; tender and excellent keeper.

Oz. 10c, ¼ lb 20c, lb 60c

Should you be a Buyer of Alfalfa, Clover, Timothy, etc., see pages 55, 56 and 57, and let us mail you samples. We have the Best in the Country.

RUTABAGAS.

These require a longer season in which to grow than do turnips; the seeds should be sown about the first to the middle of July to make large bulbs. The seed should be sown always in drills, so as to permit of frequent cultivation during the early stages of growth.

S. N. Co.'s Rutabaga—Purple top, finest quality, large size, good flavor, best of all Rutabagas.

Oz. 10c, ¼ lb 20c, lb 60c

S. N. Co.'s Imperial—A standard English variety, hardy, will produce extraordinary crops

Oz. 10c, ¼ lb 20c, lb 60c

TURNIPS—In 5c Lithographed Packages.

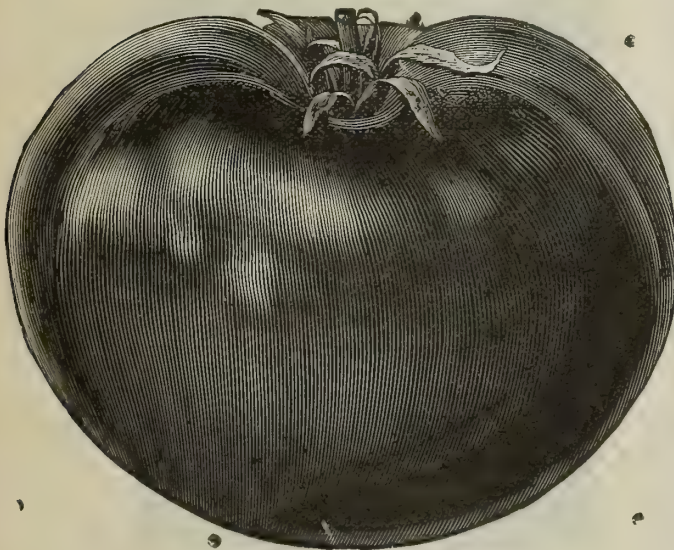

Purple Top Strap Leaved. Early White Egg.

Purple Top White Globe.

Rutabaga—Amer. Purple Top.

TOMATOES.

Send for our pamphlet, "How to Grow Tomatoes in Montana," which will be forwarded free on request.

S. N. Co.'s Montana Beauty.

S. N. Co.'s Montana Beauty—Fruit large and smooth; excellent flavor, good shipper; the best all round variety for Montana; does not crack, (See cut).

Oz. 25c, ¼ lb 75c

S. N. Co.'s New Stone—Bright scarlet color; very solid; medium size, good shipper; not liable to crack; vines vigorous and productive.

Oz. 20 c, ¼ lb 70c

S. N. Co.'s Early Acme.

S. N. Co.'s Acme—Selected stock. A deep rich color, smooth, solid, and for earliness it is not approached by any good Tomato.

Oz. 25c, ¼ lb 70c

S. N. Co.'s Ponderosa—This is the largest fruited tomato and of fine quality for slicing. The vines are of strong, rather open growth, fruits largely oblong in form, deep through, and generally ridged or ribbed; deep purple in color. They are solidly fleshy with small seed cells; of fine, sweet flavor. Planted in good soil, fruits frequently attain a weight of one pound and over.

Oz. 30c, ¼ \$1.00

S. N. Co.'s Early Minnesota Tomato—There is no better variety for general crop or family use; smooth, solid, deep red color and excellent flavor. Oz. 25c, ¼ lb 80c

S. N. Co.'s Dwarf Champion—Most distinct and valuable. Dwarf, stiff habit, dark green foliage, not needing any support. It is very early and wonderfully prolific. Color same as Acme. It is perfectly round and smooth; of medium size. Oz. 25c, ¼ lb 75c

S. N. Co.'s Yellow Cherry—Much esteemed for preserves and pickling; fruit small and of excellent flavor. Oz. 25c, ¼ lb 75c

S. N. Co.'s Red Cherry—This also is a preserving Tomato; every lover of Tomato preserves should grow some of these; fruit small and of a bright red color.

Oz. 25c, ¼ lb 75c

TOMATOES In 5c Lithographed Packages.

Early Minnesota.

Livingston Beauty.

Early Acme.

Dwarf Champion.

Montana Beauty.

Yellow Pear.

Red Cherry.

Flower Seeds

Specially Selected for High Altitudes.

Flowers from seed are usually known as **Annuals, Biennials and Perennials.**

Annuals bloom and ripen seed the first year and then perish.

Biennials do not generally flower the first season and are in perfection only one year.

Perennials continue to flower several years in succession. Many of them bloom the first year if sown early.

Hardy Annuals, Biennials and Perennials can be sown in the open ground early in the spring if desired, and Biennials and Perennials will not require any protection in winter. The blooming period of all classes may be greatly extended by picking off the flowers as soon as they begin to fade.

Half Hardy Annuals, Biennials and Perennials should not be sown in open ground until settled warm weather, though they can be sown in the house, if desired, and afterwards, transplanted. The two latter need to be protected in the winter, or carried over until spring in cold frames or green-houses.

Ageratum—Valuable plants for beds and borders; free bloomer, half hardy annual, blue. Pkt.5c

Alyssum—(Sweet). Fragrant, white, hardy annual. Good for border. Height 9 inches. Ounce.....25c, pkt. 5c

Alyssum—(Little Gem.) A dwarf variety growing 4 to 5 inches in height and making a spreading growth remaining in bloom from spring till fall; fine for bordering. Pkt. 10c

Amaranthus—Ornamental foliage plants, half hardy annuals; mixed; very showy. Pkt. 5c

Asters—(Splendid Mixed). Double dwarf variety of many colors. Pkt.....5c, oz. 75c

Asters—(Giant Comet Mixed). Magnificent flowers on long stems; splendid for cut flowers. Pkt.....10c
(Giant Comet). White, Peach Blossom, Pink and White, Deep Rose, Light Blue and Carmine, Purple, etc. Pkt.....10c

Asters—(Victoria Mixed). Massive and showy Profuse bloomers, magnificent strain. Pkt.10c

Aster—(Semple's Branching Mixed). Large, very double, clear colors, on long stems.

Pkt.10c

(Semple's Branching). White, Shell Pink, Purple, Crimson, Lavender. Pkt.....10c

Asters—(Queen). Of dwarf growth and earlier than others. Resembling the Comet or Poodle. White. Pkt.....10c

Aster—(Ostrich Feather).—This Aster is well known for its unique appearance, resembling the Japanese Chrysanthemums; in this beautiful race we have not only twisted, curled and crested forms, but large and striking flowers. Pkt.....10c

White Ostrich Feather.

Balsam—Tender annual, a favorite garden plant and well known. Beautifully colored; many kinds. Mixed pkt.....5c

Balsam Apple—An annual climber, with yellow blossoms and beautiful foliage. The fruit is egg-shaped; when ripe bursts suddenly open, scattering its seed, and showing a brilliant carmine interior. Fine for trellises, fences, stumps, etc.; half-hardy annual. Pkt.....10c

Bellis—(See under Daisy).

Bachelor's Button—Very generally grown and well known; many colors. Mixed pkt. 5c

Calliopsis.

Calliopsis or Coreopsis—A very pretty border plant with beautiful orange, brown and crimson flowers; pleases everyone. Pkt. 5c

Canarybird Vine—A rapid growing summer vine with canary yellow flowers; splendid for covering porches or trellises. Pkt. 5c; oz. 30c

Centaurea—A distinct type of *Centaurea* of large size, fragrant and good stems, of easy culture and flowers freely; white yellow, blue, Rose. Pkt. 10c

Centaurea—(*Cyanus*). Mixed colors; flowers average 1 to 1¼ inches in size, flowering freely all summer. Per pkt. 10c

Candytuft — Universally known and cultivated as a border or bed massing plant, white. Pkt. 5c; mixed pkt. 5c; Oz. 25c

Candytuft.

Cosmos—One of the notable fall flowers; yields hundreds of blossoms 3 inches across. Both foliage and flowers are unsurpassed for bouquets and vases. Annual.

Mixed colors, pkt. ... 5c

Campanula—(*Canterbury Bells*). Hardy perennials; if sown early in good soil, will bloom early the next season. Beautiful, large, bell-shaped flowers.

Mixed double and single pkt. 5c

Carnation—(*Marguerite*). Very free flowering; blooms in 4 months from sowing. Hardy. Mixed pkt. 5c

Cobea—A fine, rapid growing climber, with handsome foliage and large bell-shaped flowers; green at first but rapidly changing to purple. Seeds set on their edge should be started in hot bed or rather dry soil, as they are apt to rot in open ground. One of the best climbers for covering arbors, etc. Tender perennial, purple; 20 feet, pkt. 5c

Chrysanthemum.

Chrysanthemum — (Annual). Summer blooming plant of compact and thrifty growth; large single flowers of many colors, one of our prettiest annuals.

Pkt. 5c

Columbine—Hardy perennial, bearing countless exquisite blossoms of clear blue, white rose, yellow, purple-striped,

etc. Fine for permanent borders. Height 2 feet. Fine double mixed pkt. 5c

Daisy—(*Bellis*). Finest double; very desirable for edgings or low borders.

White pkt. 5c or Red pkt. 10c

Dianthus—(See under Pinks.)

Eschscholtzia.

Eschscholtzia — (*California Poppy*). Finely cut foliage of grayish green, flowers white and orange, etc., very generally grown.

Mixed, pkt. .5c; oz. 25c

Eschscholtzia — (*Peerless Mixed*). A grand strain of the well-known favorite California Poppies. The flowers have large overlapping petals,

which are often delicately waved at the edges, showing beautiful and varied forms.

Per pkt. 10c

Foxglove—(*Digitalis*). Hardy biennial; tall growing plant suited to the background of borders. Pkt. 5c

Forget-me-not—(*Myosotis*). Blue; should be grown in moist, shady situation. Pkt. ... 5c

Four O'Clock—(*Marvel of Peru*). Handsome, free flowering, half hardy perennial, flowers white, yellow, crimson, etc. Fine mixed p. 5c

Godetia—Showy garden annual of compact growth; about 1 foot high. Profuse bloomer. Mixed pkt. 5c

Gourds—(*Ornamental*). Summer climbing annual of luxuriant growth for covering arbors. Sow in warm place. Pkt. 5c, oz. 20c

Gypsophila—Graceful, hardy plant; flowers in feathery panicles; fine for bouquets; white and pink. Mixed pkt. 5c

Gypsophila—(*Perennial*). A graceful, hardy plant, fine for cutting for bouquets; flowers in feathery white panicles; height 1½ ft.

Pkt. 10c

Hollyhock—Mixed, double, good quality.

Pkt.5c

Hollyhock—Chater's. The finest strain of this grand plant, containing the latest improved shadings; beautifully double; 5 to 6 feet. Mixed colors. Pkt..10c
White, Pink, Deep Rose, Crimson, Blood Red, Lemon, Yellow, Salmon.

Chater's Hollyhock. Pkt10c

Humulus—(Jap. Var.). Variegated Japanese Hops. Quick growing vine for veranda or trellis. Annual; not subject to insect pests; very handsome, stands drouth well.

Pkt.10c

Ice Plant—Pretty summer trailing annual for vases and rock work; leaves covered with ice-like drops. Pkt.....5c

Kochia or Mexican Burning Bush—Grows quickly from seed sown in the open ground. The plants are always of the rounded or globe-like form. The plants branch freely, and the stems are clothed with slender light-green leaves. Early in the fall the ends of the shoots are thickly set with small bright scarlet flowers, the bushy plants resembling balls of fire. Pkt.....10c

Larkspur—A popular garden annual; long spikes of various colors; double dwarf, or tall. Pkt.....5c

Linum—(Scarlet Flax.) Distinguished for their brilliant colored flowers, which are deep crimson with black center saucer shaped, and very conspicuous in bed and border. The foliage of the plant is slender and delicate, and the flowers produce very little seed. Height 1½ feet. Hardy annual. Pkt..... 5c

Mignonette Machet.

Mignonette—(Machet). Large flowering, extra select; much finer than the common variety. Pkt.....10c, oz. \$1.00

Mignonette—A well known delightfully fragrant hardy annual. Pkt.....5c, oz. 25c

Marigold—Old garden favorite of easy culture; of various colors with fine foliage; double dwarf; flowers all summer and fall.

Pkt.5c

Moon Flower—So called from its rare peculiarity of blooming best at night, although it also expands its flowers on dull days. It is a beautiful climber, producing large, sweet-scented flowers 4 to 5 inches across. Tender annuals 15 to 20 feet. Soak seed and plant in warm, sunny place. Pkt.....5c

Morning Glory—(Convulvulus Major.) Unequaled for rapidity of growth and profusion of bloom; very popular climber.

White, Crimson, Blue.

Pkt.....10c

Mixed, pkt.....5c

Ounce15c

Morning Glory.

Musk Plant—Foliage emits a strong musky perfume; yellow; good for hanging basket. Pkt5c

Nasturtium—(Tall). Mixed Hybrids. Beautiful and luxuriant annual climber for trellises and arbors; of easiest culture; 6 to 10 feet; plant when ground gets warm.

Pkt.....5c, oz. 15c, ¼ lb 40c

Nasturtium—(Dwarf). Mixed. One foot high; fine variety for beds and borders; free bloomer. Pkt.....5c, oz. 15c, ¼ lb 40c

Nasturtiums—Tall or Dwarf in crimson, blood-red, yellow, scarlet, etc., per ounce pkt..20c

Nigella—(Love in a Mist). Pretty garden annual; feathery green foliage in which the flowers are set. Height 9 inches.

Pkt.5c

Phlox—Superb mixture. Pkt.5

Phlox — Drummondii Grandif). Peerless mixed, contains fine, select varieties of this showy annual.

Pkt.10c

Phlox Drummondii.

Pansy—Mixture of 100 fancy varieties.
Pkt.5c

S. N. Co.'s Peerless Pansy.

Pansy—S. N. Co.'s Peerless. A splendid mixture of many very fine varieties of large size. Pkt.....10c

Pansy—S. N. Co.'s Peerless Giant, Snow Queen, etc. Pkt.....15c

Pansy—S. N. Co.'s Peerless Giant Mixed. A special mixture of all the Giant Pansies; very fine. Pkt.....15c

Pansy—S. N. Co.'s Premium Mixture. Embraces all the fancy varieties; none better grown. The pick of three nations, America, England and Germany, and the best of all. Pkt20c

Petunia—Large flowering, all colors, single; mixed; fringed and ruffled. Pkt.....5c

Petunia—Double, large flowering; selected varieties; mixed colors. Pkt.....15c

Petunia—S. N. Co.'s Double Mixed. New, large flowering, the most select strains obtainable, with all the new colorings. Pkt..20c

Cobaea Scandens—(Rapid Climber)

Poppy—All varieties, mixed; single. Pkt..5c

Poppy—Double Paeony flowered, an old favorite. Pkt.....5c

Shirley Poppy.

Shirley—Wonderfully pretty, profuse and continuous-blooming poppies with a bright, tissue-paper like appearance. The colors range from white through shades of pink, to glowing scarlet. Some are red with white edges, and others veined and streaked and flaked from the center toward the edges in the most charming confusion. Pkt.....10c

Poppy—Peerless Iceland mixed. A very pretty hardy perennial; winters well, and blooms early. Pkt.....10c

New Oriental Hybrid Poppies—For brilliancy of colors there is nothing to equal these Oriental Poppies. The flowers are of enormous size, often over six inches in diameter, while the colors range from soft flesh and rose to the most brilliant, dazzling scarlet, and richest maroon purple. Their culture is as simple as that of the common garden Poppies. One of their most valuable qualities is that they are perfectly hardy perennials, living through winters with but little protection and increasing in size and beauty from year to year. Pkt.....10c

Portulaca—Any dry, bare spot in the garden exposed to the burning sun and not fit for anything else will be the very place for Portulaca; thrives anywhere.

Single or Double, pkt.....5c

Ricinus—(Castor Oil Bean). Used for centers of beds; plant early in the house.

Pkt.5c

Pyrethrum Aureum—(Golden Feather). Used for carpet bedding and borders; foliage bright yellow; very attractive. Pkt....10c

Pink Double Heddwiggii.

Salpiglossis—Showy bedding or border plant. Mixed, pkt.....5c

Schizanthus—This annual should be more widely cultivated. Flowers different shades of blue, curiously cut and delicately spotted, laced with crimson, white, yellow, etc. Height 18 inches. Mixed colors, pkt....5c

Snapdragon—(Antirrhinum). An old favorite plant; blooming till late fall; height 2 ft. Pkt.5c

Snapdragon—(Antirrhinum Dwarf). Tom Thumb, mixed colors, pkt.....10c

S. N. Co.'s Large Flowering Stocks.

Pink—(Dianthus.) Chinese Pink; all colors, mixed; hardy perennial. Pkt.....5c

Pink — (Heddwiggii). The Double Japan Pink, flowers very large, of rich and varied colors. Pkt.10c

Stocks — (Ten Weeks) Peerless double; these popular plants are generally grown both for the brilliance and profusion of their blossoms and their fragrance. They are quite indispensable; easily cultivated. Mixed, pkt 5c and 10c White, Blue, Crimson, Purple, Blood Red, etc. Pkt....10c

Virginia Stocks—Beautifully fragrant dwarf annuals, with bright-colored flowers, making the garden gay in early summer. Height 6 inches, mixed, pkt.....5c

Sweet Sultan—Very desirable flowers of very pretty bright colors, and fragrant; on the Bachelor Button order but larger. Pkt.5c

Sunflower—(Chrysanthemum-Flowered). Perfectly double; the color is the brightest golden yellow. The flowers are so perfect in form that they resemble very much double Chrysanthemum-flowered Asters with long stems; grows several feet high and blooms profusely all summer long. Pkt.....5c

Sunflower Californicus—The plant of this fine variety is well branched and bushy, and attains a height of about three feet. It is covered with finely formed flowers, which are about three inches across, of golden yellow, having black discs, and borne on long stems which rise well above the foliage. If the seed be sown in spring, in a sunny place, the plants will bloom abundantly in early summer, until killed by frost. Pkt.....10c

Sweet William—Mammoth single. The finest strain of this well known garden favorite; will bloom the first year if sown early; hardy biennial. Pkt.....5c

Thunbergia—(Black Eyed Susan). A beautiful, tender climber 3 to 5 feet high, with pale yellow or orange-colored flowers, having a distinct black center. Tender annual. Pkt.5c

Verbena—Mixed colors. Pkt.....5c

Verbena — Peerless mixed. A selection of improved varieties of this beautiful bedding plant. Pkt..10c White, Pink Striped, Purple, Scarlet. Pkt.10c

Verbena.

Verbena—Peerless Mammoth Mixed. The largest and newest varieties; flowers all summer. Pkt.....15c

Wallflower—The massive spikes of sweet-scented flowers are very conspicuous in beds and borders; desirable for cutting. 1½ feet. Single, mixed pkt.....5c

Wild Cucumber—Rapid growing annual climber; attains a height of 20 feet in a few weeks. Pkt.....5c, oz. 15c

Zinnia—Showy, free flowering, bedding or border plant. Mixed, including the newest varieties. Pkt.....5c

Free for the asking.—Any one of our Sweet Pea Novelties, with any Flower Seed Order amounting to One Dollar.

Free, our Pamphlet, "How to Grow Tomatoes in Montana."

Free.—The Secret of How to Grow Plants and the Care of Cut Flowers.

SWEET PEAS—Our Specialty.

Part of Sweet Pea Field at Our Nurseries.

There is no State in the Union where Sweet Peas are grown so generally and attain such perfection as in the Treasure State. The Sweet Pea is pre-eminently a Montana favorite.

The following list of Sweet Peas we respectfully submit to our customers. It comprises all of the most desirable varieties up to date.

In this list we have selected the best self-colors—the best whites, the best reds, the best pinks, the best lavenders, the best yellows, etc.

See end of named varieties for price.

Tall Growing Giant Flowering Varieties.

PURE WHITES.

Dorothy Eckford—The best White in existence. Semi-hooded with very large standard, averages 2 inches across.

Blanche Burpee—Of slightly hooded form, which makes this a very graceful and pleasing variety.

Emily Henderson—A good white, early and free flowering, vigorous grower; very popular.

Mrs. Sankey—Medium size, hooded form, the buds and younger flowers show quite a tint of pink, matured flowers are pure white.

PINK—LIGHT AND DEEP.

Katherine Tracy—Soft, rosy pink, lighter at edges. A fine large flower, and of strong, vigorous growth.

Mrs. Gladstone—This medium sized open form Light Pink is similar to above, but a trifle lighter, a very desirable color.

Blushing Beauty—A very attractive shade of Light Pink with a suggestion of Mauve in it.

Gracie Greenwood—Creamy Light Pink, self colored, medium size, hooded form, one of the newer introductions.

Gladys Unwin—Clear, bright, Light Pink of very large size, open form with wavy edges. Frequently four flowers to a stem and excellent for cut flowers. A novelty. (Special price, pkt. 25c.)

Lovely—Large size, hooded form, very vigorous grower, an effective variety, standards and wings deep pink shading to light, frequently four flowers to a stem.

Hon. F. Bouverie—Standards and wings deep Pink at base shading to light. The Pink shades being on a ground of Primrose, a great favorite.

Dainty—Medium size, hooded form, White shaded with Light Pink, the stems are longest of any variety and are almost without exception four flowers to a stem.

Mrs. J. E. Drake—This is a grand new light Pink of hooded form with a long stiff stem, a novelty introduced by us alone, vines are strong and vigorous and the color very attractive. (Special price per pkt. 25c.)

Modesty—Blush Pink, an improved Katherine Tracy, which should be in every Sweet Pea collection.

Royal Rose—Delicate Pink; a great favorite.

Prima Donna—A most beautiful bright shade of Blush Pink. Flowers of large size and finest form, frequently four on a stem.

ROSE AND LIGHT PINK.

Blanche Ferry—Standard, wide and erect, bright Rose-Pink; wings creamy white, tinted with rose. Extra early.

Apple Blossom—Large, beautifully hooded flowers; standard heavily shaded and edged with soft rose on silvery white; wings white with deep rose in center.

Ramona—Light Pink striped on white, large size, hooded form, a new Pea of great merit. (Very scarce.)

DEEPER ROSE AND PINK.

Jeannie Gordon—Large size, hooded form, standard Rose shaded light to deep, wings Primrose tinged with Pink.

ORANGE PINK.

Oriental—Bright Orange Pink standard, wings Pink with Orange Rose, medium size, semi-hooded, robust habit and free bloomer.

Miss Wilmott—Very large, semi-hooded, of the best type, stems long and plants vigorous, standard Orange Pink shaded, wings Rose with strong tint Orange.

Aurora—Flowers of extra large size uniformly three on a long stem. Both standard and wings beautifully flaked with bright Orange salmon on a creamy white ground.

Gorgeous—A beautiful salmon Pink with Orange wings, unequalled for table decorations; 3 to 4 flowers of fine quality on a stem.

PALE YELLOW OR PRIMROSE.

Hon. Mrs. E. Kenyon—Light Primrose, very large, semi-hooded, the latest and best of this shade.

Mrs. Eckford—Pale Yellow of large size, semi-hood form of the best type.

Golden Gleam—Light Primrose, strong grower, has long stems, hooded form and large size

Queen Victoria—Light Primrose, self colored, medium sized, hooded form, the bud and newly opened blossoms show a tint of Pink, matured blossoms a clear soft Primrose.

ROSE AND CRIMSON.

Mrs. Jos. Chamberlain—Crimson Rose striped on white, large size and good form, frequently 4 fine flowers on a stem.

Her Majesty—Large, finely hooded flowers of beautiful soft rose crimson, generally four flowers on a stem.

Prince Edward of York—Scarlet and Rose, one of the Eckford's latest introductions, of which the grower speaks very highly. Standard round with wavy edges.

SHADES OF RED.

King Edward VII—Bright Red or Crimson Scarlet, very large size, open form with standard a little brighter than wings.

Firefly—Bright Red, practically self-colored; medium size, open form, an old favorite

Salopian—Crimson Scarlet, large size, hooded form, the best Crimson Scarlet grown. (Sun-proof.)

Mars—Bright Red, self colored, large size, hooded form, fine stems, very popular flower.

Black Knight—Very deep Maroon, practically self colored, large size, open form, one of the darkest varieties grown.

SHADES OF LAVENDER.

Lady Grisel Hamilton—Most attractive light lavender shading; flowers of best hooded form and extra large size.

New Countess—Improved; the flowers being a clear light lavender. The shade is very attractive when seen in a large bouquet composed solely of this variety.

Countess of Radnor—Very similar to new Countess in form and size, but a trifle deeper in color, medium size, hooded form.

WHITE LAVENDER EDGED.

Lottie Eckford—White ground suffused with lavender; we find an increasing demand for this style of Pea; nearly everyone uses them; in a collection they are very attractive.

Maid of Honor—Nearly White, Bluish edge, very showy. The most attractive Sweet Pea grown, a favorite with everyone.

**BLUE AND PURPLE.**

Captain of the Blues—The flowers have the appearance of being a true Blue, but examination shows that standard is purplish mauve, while wings are lavender-purple; bright and attractive.

Navy Blue—The richest and most distinct shade in dark-colored Sweet Peas. The large flowers are of a deep, glowing violet-purple, having the effect of a dark navy blue.

Duke of Westminster—Standard clear purple, wings purple with tint of violet, large size, of hooded form.

Admiration—Mauve on a ground of light Primrose, medium size hooded form, almost a self color of vigorous growth, handsome variety.

Helen Pierce—Gloxinia flowered type, color very bright Blue, mottled on pure White, not striped but uniformly marbled with the Blue; the effect is very fine if used alone for decoration, it bears three and often four flowers on a stem all of which face one way, a mark of high merit in modern Sweet Peas.

Price per pkt. 25 seeds.....25c

Price on any of the foregoing named colors, Sweet Peas (except Novelties). Oz. 10c, ¼ lb 30c, lb \$1.00.

On any Flower Seed Order amounting to \$1.00 you may select 1 packet of either of our Sweet Pea Novelties Free.

SWEET PEAS—MIXED.

Good Mixed—A well proportioned mixture of about fifty varieties, but does not contain the newer and best varieties.

Oz.....5c, ¼ lb 15c, lb 45c

Peerless Mixed—This is the best mixture that can be made. The colors are well proportioned, the amount being determined by a well studied and carefully balanced formula, all the newer and best varieties are included.

Per oz.....10c, ¼ lb 25c, lb 80c

DOUBLE SWEET PEAS.

Giant Flowering. Tall Growing.

Bride of Niagara—The standard bright Carmine Rose, wings white, usually tinged with pink, the earliest double Sweet Pea, of medium size and open form.

Senator—Standard Maroon and Violet, wings Violet and Indigo, both striped on white, large size, hooded form.

White Wonder—Pure White, frequently produces from five to nine flowers on a stem, fully one-half being double, this variety is regarded as the best double White in existence.

Double Sweet Peas per Oz...10c, ¼ lb 30c, lb \$1.00

PERENNIAL OR EVERLASTING PEAS.**LATHYRUS LATIFOLIUS.**

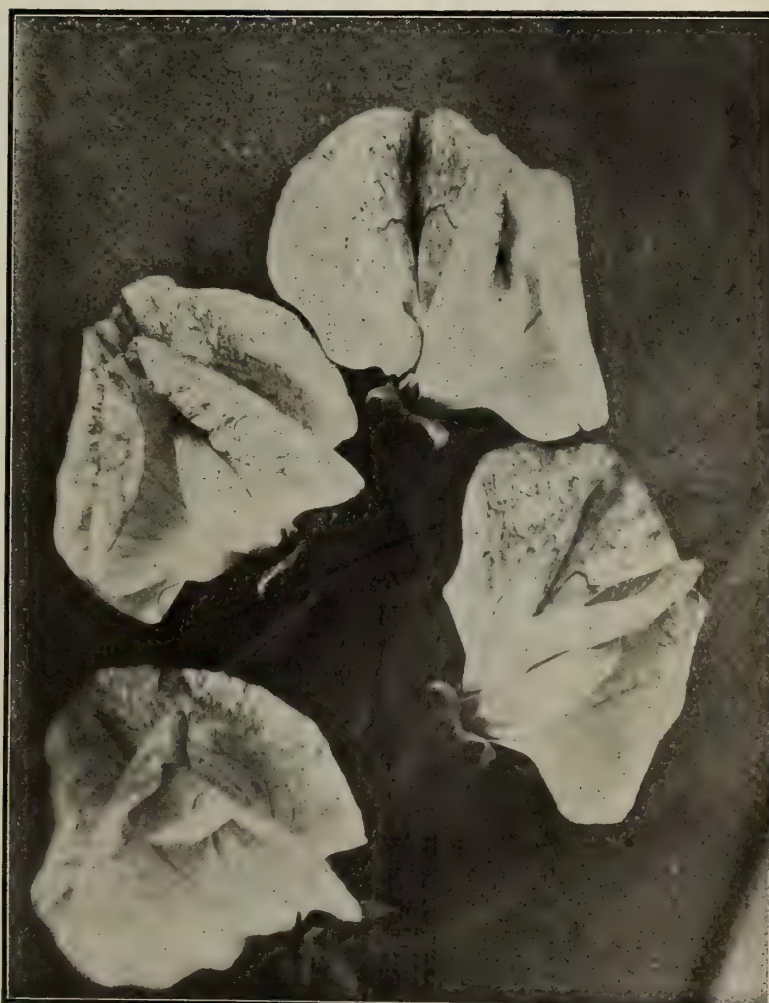

Lathyrus—(Perennial Peas.) These perennial Peas, while lacking the delicious fragrance of the Sweet Peas, are equally as beautiful, and are very valuable from the fact that they are in full bloom early in the spring, before the others have begun to flower. They live year after year, bearing magnificent clusters of flowers. Perfectly hardy and grow eight to ten feet high.

Mixed, easily grown; flowers purple and white;

Per ounce.....15c

Lathyrus—(Perennial Peas.) Pink Beauty; the ground of the Petals is White, edged and shaded with Pink.

Per ounce.....15c

Helen Pierce (Novelty).

Rocky Mountain Lawn Grass Mixture

To Make a Handsome Lawn—The ground must be well dug, raked and leveled, and where the soil is composed mostly of sand and gravel, a top dressing of about four inches of black soil should be applied, well raked and leveled, and every semblance of weed root removed. If rich soil cannot be secured, well decomposed stable manure or a good fertilizer may be used. After the seed is sown, which should be done on a calm, dry day, rake the seed in and roll well, or in the absence of a roller, pat the ground well with the back of a spade or shovel. Much of the fine appearance of a lawn depends upon the regularity in mowing. If not closely mown the stronger grasses will overgrow the weaker, thus rendering the whole patchy and unsightly. For forming new lawns, not less than sixty to one hundred pounds of seed are required per acre, and for the renovation of old ones, half that quantity will give good results.

Our Lawn Grass Mixture cannot be equalled. The blending of which we have made a study; if used according to the directions above one cannot fail to have a beautiful lawn in a few weeks. The great point after securing good seed is keeping the ground damp while the roots are forming. Frequent spraying is necessary.

Rocky Mountain Lawn Grass Mixture—Selected, blended and packed only by us, as follows: 1 lb pkg. for 200 square feet of lawn, 25c; 5 pounds \$1.15; 10 pounds \$2.00. Write for price in 100 lb lots.

Shady Lawn Mixtures—
Pound.....40c, 5 lb \$1.80, 10 lb \$3.50

Terrace Sod Lawn Mixture—
Pound.....40c, 5 lb \$1.80, 10 lb \$3.50

Tennis Court Mixture—
Pound.....25c, 5 lb \$1.15, 10 lb \$2.00

Kentucky Blue Grass—(Fancy Recleaned).
Used extensively for lawns and parking streets, also makes excellent pasture or hay.
Per lb20, per 100 lb \$17.00

Kentucky Blue Grass—(Fancy). A good clean grade, suitable either for lawn or pasture.
Pound.....17c, 100 lb \$15.00

White Clover—(Fancy Recleaned). This is frequently sown to cut green for chicks and fowls; also used largely in making lawns for which this variety is specially adapted.
Per lb 30c; (per 100 lb \$16.75, by freight at purchaser's expense).

LAWN DRESSING.

Our lawn dressing is sterilized, screened sheep manure, free from weed seeds and obnoxious odors; a suitable food for lawns, which will produce that beautiful dark green color and velvety appearance so much desired. Stable manure is unsightly, unpleasant to handle and is full of weed seeds, and costs more. Give your lawn a dressing using 100 pounds for 500 square feet.

Price.....per 100 lbs. \$1.50

POTTING SOIL.

Suitable for all ordinary plants and bulbs such as is used in our Greenhouses.

Per bushel sack.....50c

ROCKY MOUNTAIN PLANT FOOD.

This preparation we have used for the past ten years and have found it to be almost indispensable. It is especially designed to act as a tonic to window and house plants. Apply to your plants according to directions.

Price, postpaid.....per pkt. 10c, doz. \$1.00
It makes plants grow.

Weppner and Adams' Plant Food—A food rich in phosphates, bone and potash.
Per lb pkg.....25c, per 1/2 lb pkg. 15c
Add 8c and 15c respectively if wanted by mail.

Grass Shears—German pattern with thumb rest, good steel blades, pair.....50c

Grass Shears—Diamond edge tool steel, the best that money can buy.....75c

Grass and Clover Seed Department

This is the first year we have listed Grass and Clover Seed. But we are handling the very Best Grades that money and experience can produce, our "Peerless" Grade cannot be excelled. Anyone who buys our Peerless grades may return them at our expense, if, upon receipt and examination, they are found in any respect unsatisfactory, and money paid for same, both for seed and freight, will be **PROMPTLY REFUNDED**.

Bear in mind that values on grass and clover seeds fluctuate greatly, and that prices mentioned here are those prevailing at the time this catalogue goes to press. **If wanted by mail add 8 cents a pound for postage. In ordering always state grade wanted.**

50 lbs billed at 100 lb rates. Seamless Sacks 20c extra.

Alfalfa Showing Root Growth.

Alfalfa or Lucerne—Choice Utah, recleaned.

Per lb.....18c, per 100 lb \$15.00

Alfalfa—Fancy Montana, recleaned.

Per lb.....20c, per 100 lb \$16.00

Alfalfa—Turkistan. "Peerless" grade.

Per lb.....22c, per 100 lb \$18.00

Guaranteed True and Free from Dodder.

If sown alone 20 lbs to acre.

Clover—Red Mammoth, fancy recleaned used extensively for soiling and fertilizing.

Per lb.....18c, per 100 lb \$15.00

If sown alone 9 lbs to acre.

Clover.

Clover—Medium Red, "Peerless" grade.

Per lb.....18c, per 100 lb \$16.75

If sown alone 8 lbs to acre.

Clover—Medium Red, choice recleaned. Per lb

16c, 100 lb \$14.75. If sown alone 9 lbs to acre

Clover—Alsike or Swedish. This is the best clover for wet ground, "Peerless" grade.

Per lb.....17c, 100 lb \$15.00

If sown alone 8 lbs to acre.

Clover—White, "Peerless" grade. Per lb 20c,

per 100 lb \$16.75. If sown alone 7 lbs to acre

Timothy— "Peerless"

Grade. This must be seen to be appreciated. Send for samples.
Per lb 8c.
Per 100 lb\$5.75
If sown alone 10 lbs to acre.

Timothy—"Choice Recleaned."

Per lb6c, per 100 lb \$4.60
If sown alone 13 lbs to acre.

Bromus Inermis—Drouth defying, frost resisting. Yields enormous crops of splendid hay and affords early and abundant pasturage. It adapts itself to almost every condition of soil and climate, and to any use to which grass may be put, equaling in quality and rivaling in yield almost every other grass. It is not an experiment. It is a thoroughly established success.

Our "Peerless" grade of this magnificent grass is unequaled for purity and high germination, and less seed of it is required to the acre than any other grade. From good seed, good crops grow.

Per lb16c, per 100 lb \$12.50
If sown alone 20 lbs to acre.

Red Top—(Solid Seed). Free from chaff, "Peerless" grade.

Per lb12c, per 100 lb \$9.00
If sown alone 11 lbs to acre.

Kentucky Blue Grass—"Peerless" grade; free from chaff. Per lb 20c, per 100 lb \$17.00

Kentucky Blue Grass—Fancy Recleaned.

Per lb17c, per 100 lb \$15.00
If sown alone for Pasture 20 lbs to acre.
If sown alone for Lawns 50 lbs to acre.

Hog or Broom Corn Millet—This is grown for the same purposes for which the other Millets are sown, but makes inferior hay unless cut very young. It, however, yields enormously of seed, even 60 to 70 bushels to the acre, and this seed is very advantageously used for fattening swine and other stock, and is of special value for this purpose in sections where corn cannot be safely or cheaply grown. Per lb 4c, per 100 lb \$3.25
If sown alone 30 lbs to acre.

Hungarian—(Dark Seed). Many regard this as being better even than German Millet, as

it is about one week earlier and requires less moisture. The hay is fine and of excellent feeding value.

Per lb4c, per 100 lb \$3.25
If sown alone 30 lbs to acre.

RAPE, VETCHES, SPELTZ, KAFFIR CORN.

Rape—(Dwarf Essex). Dwarf Essex Rape has been usually grown, until recent years, to furnish pasture for sheep and lambs, but it is now being found equally good in providing pasture for nearly all kinds of stock. It is an annual, bearing a close resemblance in leaf and stalk to the rutabaga, but both leaves and stalk are more numerous in the Rape plant, and of a taller habit of growth. It is a pasture plant which may be eaten off by any kind of live stock, but is pre-eminently fitted to furnish pasture for sheep, cattle and swine.

Per lb8c, per 100 lb \$5.25
If sown broadcast 5 lbs to acre.

VETCHES.

Sand or Winter Vetch—(*Vicia Villosa*.) Sometimes called **Hairy Vetch**. This has proven to be the most valuable of all Vetches. It succeeds well on nearly all soils, and thrives surprisingly on poor, light land, and well withstands extremes of drought, heat and cold. It may be sown either in the spring or fall usually with Rye. It grows rapidly and is particularly valuable in sections where clover does not thrive. In the North it remains green all winter under the snow, and it is invaluable for early pasturing or soiling. It is valuable as a fertilizer, being a great nitrogen gatherer. For hay, cut when commencing to pod.

Per lb.11c, per 100 lbs write for price.
Fifty pounds of seed required to the acre.

SPELTZ.

Speltz—Has now been grown in the United States in a large way for several years and each succeeding season not only **Emphasizes Its Value**, but sees its production increasing to an enormous extent. In methods of cultivation this is probably the least exacting of all cereals. It should be sown very early, and this can safely be done, as it resists early and severe frosts.

Per lb3c, per 100 lb \$2.10
If sown alone 80 lbs to acre.

WINTER WHEAT.

We offer for Fall seeding two varieties of Winter Wheat (grown without irrigation): Sow in August or September.

STRICTLY WINTER WHEAT.

"Gold Coin"—Recommended for Heavy Soil at \$2.60 per 100 lbs.

"Winter Lacell"—Recommended for Lighter soil at \$2.60 per 100 lbs.

White Kaffir Corn—Grows from four to five feet high, making a straight, upright growth. It has a stalky stem, with enormous wide leaves. The stalks keep green and are brittle and juicy, not hardening like

other varieties of sorghum, making excellent fodder, either green or dried, which is highly relished by cattle and horses. The seed heads form at the top of each stalk, and as soon as these show the grain well, the joints next below the top send up shoots which yield the second seed heads. For the grain sow in rows three feet apart. Per lb.....7c, per 100 lbs \$3.50
If sown broadcast 35 lbs to acre.

BIRD SEED.

Fancy Recleaned—Canary, per lb 10c.

Fancy Recleaned—Rape, per lb 8c.

Fancy Recleaned—Hemp, per lb 8c.

Seed Potatoes

The Potatoes here offered were grown on our own Ranch where we conduct extensive trials of Potatoes each year. We offer the following three varieties believing they will prove satisfactory in every respect:

Rough Rider—The tubers of this variety are as the illustration shows, of a longish oval form, skin white, beautifully netted, cooks well and mealy. We recommend this for a main crop Potato.

Price 50 lb.....\$1.25, 100 lb \$2.00

Early Six Weeks—This is an immense cropper, can be lifted from August onwards, cooks beautifully; the tubers are of medium size. Price 50 lb.....\$1.25, 100 lb \$2.00

North Star—An imported variety, this Potato sold in England two years ago for \$1,000.00 per ton. We find it does well with us, it has a distinct growth and produces a heavy crop of medium sized round tubers. We are pleased to be in a position to offer True Stock of this Potato.

Price 25 lb.\$1.25, 50 & \$2.25, 100 lb \$4.00

Note.—Sample of any one variety of these Potatoes will be sent on receipt of 10c to cover postage.

All Grass, Clover, Grain, Potatoes and Bird Seed will be forwarded at Purchaser's expense; 50 lbs at 100 lb rates; 500 lbs at 1,000 lb rate. Seamless Sacks, extra, 20c each.

GARDEN REQUISITES.

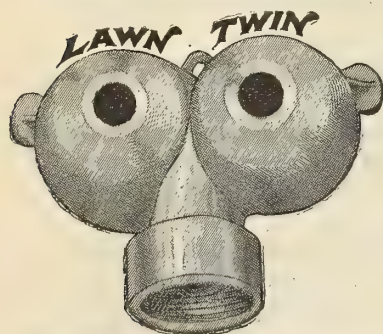

Hose—S. N. Co.'s $\frac{3}{4}$ inch XXXX High Pressure in 50 ft. lengths, with couplings, per foot 18c

Hose—S. N. Co.'s $\frac{1}{2}$ inch XX Three Ply Standard in 50 ft. lengths, with couplings.

Per ft. 12c

We can recommend the above brands of Hose to our patrons as being of the best quality, durable and serviceable. They are cheaper than cheap hose. We use this quality in our green-houses every day in the year.

The Gem—The best nozzle for hand use, will throw a straight stream, or spray. Each. .50c

The Lawn Twin
—Simple sprinkler, effective, complete; we have sold dozens of them and they always please; each 50c

The Evanston—Very serviceable lawn sprinkler covering much space evenly and thoroughly; each. 50c

The Preston—A well built revolving sprinkler that does good work, each. \$1.15

The Turbine—A new revolving sprinkler that can be adjusted to throw spray in either direction or in a circle, each. \$1.00

Hose Holder—A simple strong device to hold the Hose in any position with point to plunge into the ground, indestructible, made of Iron Japanned black, Height 2 $\frac{1}{2}$ ft, each 80c

HOSE MENDERS.

Hose Menders—(Wood). For joining a broken hose, cut through, insert the mender and wire on both ends; 2 for 5c; per dozen 25c

Hose Menders—(Brass). Used the same way as above, for either $\frac{1}{2}$ -inch or $\frac{3}{4}$ -inch hose. Each 5c.

Hose Menders—(Galvanized Iron). Used same way as above; $\frac{3}{4}$ -inch. Each 10c.

Hose Couplings—(Brass). In $\frac{1}{2}$ -inch or $\frac{3}{4}$ -inch sizes. Per coupling 15c.

Hose Bands—(Brass). In $\frac{1}{2}$ -inch or $\frac{3}{4}$ -inch, for fastening the hose to a coupling with nut and screw. Each 5c.

All Hose, Sprayers, Tools, etc., are sent by express or freight at Purchaser's expense.

TROWELS.

Garden Trowels—6-in. cast steel, good, sensible tool, each 30c.

Garden Trowels—6-in. wrought steel, none better made, last a lifetime; each 65c.

Garden Weeder with Rake—A short handled tool, very handy for flower garden; each 20c.

Excelsior Weeder—See Cut. Very handy tool in the flower garden; each 10c.

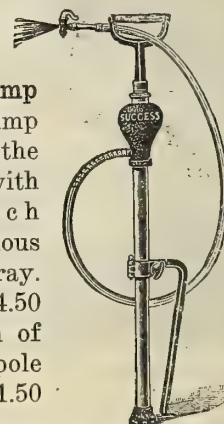

Garden Fork—3 tined, short handle; very useful tool, strong. Each 15c.

Garden Sets—Of three pieces, for children, not the cheap ones which fall to pieces so soon, consisting of spade, rake and hoe. Per set 75c

Garden Sets—Of three pieces, longer and stronger than above; a high grade article. Per set \$1.25

SPRAYERS.**Improved Bucket Spray Pump**

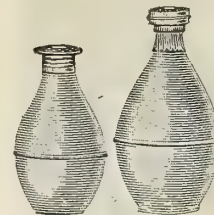

—The Success. This pump has Brass air chamber in the stock and is furnished with Bordeaux Nozzle which throws either continuous stream, fine or coarse spray. Price as illustrated. \$4.50
Seven foot extra section of Hose with couplings and pole connection; each \$1.50

**Eclipse Sprayer**—A handy Sprayer with pump.

Holds one quart liquid; very useful for plants, bushes, shrubs and small trees.

With tin reservoir, each. 65c

With brass reservoir, each. \$1.00

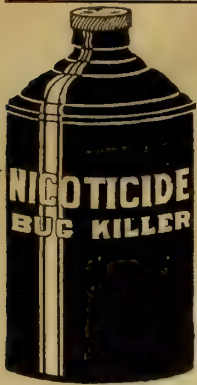

**Rubber Sprayer**—For House Plants.

$\frac{1}{2}$ pint, each. 65c

1 pint, each. \$1.25

These are also used by Housewives on Ironing days.

We issue catalog in September of all kinds of Winter and Spring Flowering Bulbs, Plants, etc. We will be pleased to send you one if you will send name and address.

INSECTICIDES.

Nicoticide—This is undoubtedly the best destroyer of Green Fly or Aphis, Red Spider, Mealy Bug or any insect that is destructive to plant life. Can be used as a fumigator or as a spray. Put up in Liquid Form.

1/4 lb cans.....	70c
1/2 lb cans.....	\$1.25
1 lb cans.....	\$2.50
1 gal. cans.....	\$18.00
Fumigators.....	60c
Full directions with each can. Diluted as directed this spray costs about 1 cent a gallon.	

Hammond's Slug Shot—An old reliable remedy for destroying Potato Bugs, Cabbage, Canker Worms, etc. Put up in powder form; full directions with each package.

1 lb cans.....	25c
5 lb packages.....	60c

Paris Green—Most effective Potato Bug killer known; sure death to all insects which eat foliage, put up in sealed packages. 1 lb 25c 2 lb 50c, 5 lb \$1.15. Write for Prices on larger quantities.

Whale Oil Soap—For Aphis and all insects which suck. This soap dissolved 3 oz. to gallon and sprayed on warm is very effective. 1 lb cakes.....25c

Insect Powder—Can be used as Powder or dissolved; excellent for House plants. Pkt. 10c

RAFFIA.

For making hats, baskets and other ornamental work. Natural color.

Per bunch, about 3 oz.....	10c
Per lb.....	25c

Dyed red, black, green, brown, blue, purple, pink, etc.

Per bunch, about 2 oz.....	10c
Per lb.....	75c

Add 1 cent per oz. for postage on R^{ms}

Raffia Needles.....2 for 5

Reeds—For shaping baskets, etc.

Small, medium or large, per coil...

Add 1 cent per coil for postage on R^{ms}
